SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 4th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report dated 1st March, 1905, from the Acting Minister of the Interior, stating that Donald McDonald, who entered as a homestead on the 29th January, 1890, for the north west quarter of Section 6, Township 15, Range 32, west first meridian, gave a statutory lien, under clause 44 of The Dominion Lands Act, for $494 which bears interest at the rate of four and six-tenths per cent per annum from the 16th September, 1899, which lien still stands against the land, to the Commissioners for the administration of the funds provided by Parliament or otherwise for the purpose of assisting colonization in Canada from the congested districts in the Western Highlands and Islands of Scotland and in Ireland.

The Minister further states that the entrant subsequently died and his entry was cancelled in June 1902, on account of the homestead conditions not having been fulfilled ; and under the provisions of the said clause of the Dominion Lands Act a patent should thereupon have been issued to the lien holders.

The Minister further states that as it was represented that one Alexander McDonald, a nephew of the original entrant, who desired to enter for the land as a homestead, was the only son and help of his mother, who had a homestead near the land, a homestead entry for the quarter section in question was granted to the said Alexander McDonald, who made his entry on the 24th August, 1903, and in whose name the land still stands.

The Minister further states that Mr. J. G. Colmer, C.M.C., has recently represented that the Commissioners would be willing to waive their rights in connection with the quarter section, provided other land was patented to them of sufficient value to cover the late Donald McDonald's indebtedness to them, and that the parcel in question being of exceptional value from its position, they would accept in full settlement of their claim two quarter sections of land, in which case they would remove the lien from the above mentioned land.

The Minister submits that in his opinion the request made by Mr. Colmer should be complied with.

The Minister therefore recommends that he be authorized to grant the Commissioners two quarter sections of any available Dominion Lands of the class open to homestead entry in full settlement of their claim in connection with the north west quarter of Section 6, Township 15, Range 32, West First Meridian.

The Committee submit the same for approval.

42-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 11th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Memorandum, dated 21st March, 1905, from the Acting Minister of the Interior, stating that allowances for rations, board and camp equipage are granted to the surveyor in charge of a survey party by Order in Council of October 26th, 1894, the clauses relating to the said allowances being as follows :—

9. The surveyor shall be allowed for himself and every man of his party a ration allowance of fifty cents per diem while in the field.

11. For meals, board and hotel expenses of himself and party while in the field, the surveyor shall be allowed, in addition to the ration allowance, a sum of twenty-eight cents per diem for himself and four cents per diem for every other member of the party.

12. Camp equipage shall be owned and furnished by the surveyor. For its use he shall be allowed while in the field twenty-two cents per day for himself and six cents per day for every other member of the party.

The Minister further states that, by Orders in Council of April 24th, 1897, and May 16th, 1899, the board and camp equipages allowances for the Assistant are made the same as for the surveyor in charge, when the Assistant is a Dominion or Provincial Land Surveyor.

The Minister further states that it has been represented on behalf of the surveyors that owing to the general increase in prices during recent years, specially in the prices of food supplies, the allowances have become inadequate and are no longer sufficient to feed and equip properly the men of a survey party. It is also pointed out that the surveyor in charge of a small party is at a greater disadvantage, the cost per man for food and equipment being higher than for a large party.

The Minister recommends in order that surveyors may be able to meet their expenses and that small parties may be placed on a more favourable footing, that clauses 9, 11 and 12 of the Order in Council of October 26th, 1894, and the Orders in Council of April 24th, 1897, and May 16th, 1899, be cancelled and the following clauses substituted :—

1. The surveyor in charge of a survey party shall be allowed a special ration allowance of one dollar per day for the party, such allowance to be paid as long as the surveyor remains in the field. He shall further be allowed an ordinary ration allowance of fifty-five cents per day for himself and every member of his party while in the field.

2. For meals, board and hotel expenses of himself and party the surveyor shall be allowed, in addition to the ration allowance, a sum of forty cents per day for himself and four cents per day for every other member of his party while in the field.

3. Camp equipage shall be owned and furnished by the surveyor. For its use he shall be allowed while in the field forty cents per day for himself and six cents per day for every other member of the party.

4. When an Assistant is regularly appointed as such by the Minister of the Interior the board and camp equipage allowances for him shall be twenty-five cents and ten cents per day respectively.

The Committee submit the same for approval.

43-4 Clerk of the Privy Council.

NOTICE TO MARINERS.

GOVERNMENT RIFLE RANGES, MCNAB'S ISLAND.

Owing to the extreme range of the Lee-Metford or Magazine Rifle, with which the musketry training of the troops will in future be conducted, and with a view to the better protection of the public, it has been found necessary to demarcate more clearly the area of water seawards, and to the south of above ranges, liable to be struck by spent or ricochet bullets.

This area has been marked by four spar buoys, placed at intervals between the Thrum Cap Shoal and the Eastern Passage, at a distance of three thousand yards from the stop butts. The buoys mark the extreme limits of the danger zone. The spars are painted red, and are surmounted by cross heads painted red and white.

Notice is therefore hereby given that any ship or boat passing inside these buoys, during the hours of practice, incurs serious risk, and no attempt should, under any circumstances, be made to cross the aforesaid area as long as the red flag hoisted at the south end of McNab's Island is left flying.

This notice will have effect from the 17th April, 1905.

By order,

Mardi, le 11e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît au Gouverneur général en conseil, en vertu des dispositions de l'*Acte des terres fédérales*, chapitre 54 des Statuts revisés du Canada, d'autoriser le ministre de l'Intérieur à émettre des baux de terres des écoles dans la province du Manitoba pour y couper du foin, aux mêmes termes et conditions que les baux émis pour les mêmes fins dans les territoires du Nord-Ouest, savoir :—

(1.) Que le bail sera pour un terme n'excédant pas cinq ans, mais sera révocable en tout temps durant son cours si le ministre de l'Intérieur le juge à propos dans l'intérêt du fonds de dotation des terres des écoles d'offrir la terre ainsi affermée en vente à l'enchère publique, ou pour toute autre raison, pourvu toutefois, que le locataire recevra dans ce cas un an d'avis de l'intention du ministère de terminer le bail.

(2.) Que le locataire n'aura pas droit, à l'expiration du bail, à aucune indemnité pour des améliorations faites par lui sur la terre.

(3.) Qu'un bail ne sera pas émis à aucune personne pour plus d'une section ou pour moins d'un quart de section.

(4.) Que dans le cas où il n'y a qu'un requérant pour un bail, la redevance sera au taux de vingt-cinq centins par acre par année, payable annuellement d'avance.

Mais quand il y a plus d'un requérant le bail sera offert à l'enchère à un prix de départ de vingt-cinq centins par acre par année.

PROJET DE CONCORDAT—PRÉPARATION ET DÉPÔT DU PROJET.

1. Chaque projet à déposer en cette cour, conformément à l'*Acte des chemins de fer*, 1903, 3 Edouard VII, chap. 58, article 285, et chaque déclaration, affidavit, pétition, sommation, avis ou autre procédure s'y rattachant, seront intitulés dans la cour, et dans l'affaire de la compagnie en question.

2. Chaque projet à déposer comme susdit, sera imprimé en la manière prescrite pour l'impression des plaidoyers et autres procédures dans cette cour.

3. Chaque tel projet sera déposé au greffe du registraire de la cour, et la déclaration et l'affidavit exigés par l'article 285 du dit acte seront annexés à ce projet et déposés en même temps que le projet, et le registraire ne transcrira aucun tel projet s'il n'est accompagné de tel déclaration et affidavit.

4. L'endos de chaque projet ainsi déposé comme susdit portera les noms et adresse du solliciteur et de l'agent à Ottawa (s'il y en a) de la compagnie.

5. Lorsqu'un projet écrit est déposé, la personne qui l'apporte pour être inscrit, devra en même temps en laisser une bonne copie avec le registraire, et le registraire comparera cette copie avec le projet déposé et le retournera ainsi examiné avec un certificat à l'effet qu'il est exact et peut être imprimé.

6. D'après cette copie certifiée les directeurs feront imprimer le projet, et avant l'expiration de cinq jours à compter du dépôt du projet, ils en laisseront une copie imprimée au greffe du registraire, avec un certificat écrit dessus par le solliciteur de la compagnie à l'effet que cet imprimé est une vraie copie du projet ainsi certifié, et après l'expiration de ces cinq jours aucune preuve que le projet a été déposé ne sera admissible tant que cette copie imprimée du projet n'aura pas été déposée.

EXEMPLAIRES DU PROJET.

7. En tout temps après l'expiration de cinq jours à compter du dépôt du projet, qu'il soit imprimé ou écrit, tout personne peut demander, par réquisition écrite délivrée au bureau principal de la compagnie,

ou au bureau de son solliciteur, ou de son agent à Ottawa (s'il y en a) un certain nombre n'excédant pas dix, d'exemplaires imprimés du projet, et les exemplaires ainsi demandés seront sur cette demande, délivrés à la personne qui les a demandées, avec un certificat écrit dessus par le solliciteur de la compagnie à l'effet qu'elles sont de vraies copies du projet déposé.

AVIS DU DÉPÔT DU PROJET.

9. L'avis à publier dans la *Gazette du Canada* du dépôt du projet, sera signé par le solliciteur de la compagnie ou son agent à Ottawa, et énoncera si le projet contient quelques dispositions pour régler et définir les droits des actionnaires entr'eux, ou pour prélever aucun et quel montant de capital-actions ou d'emprunt, et lequel, et énoncera le nom et l'adresse du solliciteur et de l'agent à Ottawa (s'il y en a) de la compagnie, et peut être en la formule No 1 dans l'annexe ci-jointe, avec les variations que les circonstances exigeront.

INTERDIRE UNE ACTION APRÈS QUE LE PROJET EST DÉPOSÉ.

12. Nul ordre en vertu de l'article 285 du dit acte pour interdire une action contre la compagnie, pour la raison qu'un projet a été déposé, ne sera rendu sauf avec l'entente que la compagnie sera responsable des dommages-intérêts (s'il y en a) que la cour ou le juge pourra juger à propos d'adjuger dans le cas où le demandeur serait plus tard tenu de procéder avec cette action ; et aux autres conditions (s'il y en a) que la cour ou le juge croira raisonnables.

PÉTITION POUR CONFIRMATION DU PROJET.

Chaque pétition pour la confirmation d'un projet sera présentée par les directeurs ou la majeure partie d'eux. Cette pétition n'énoncera pas le projet, mais y référera seulement, et peut être en la forme No 3 de l'annexe ci-jointe, avec les variations que les circonstances exigeront.

13. Les pétitionnaires qui présenteront cette pétition comme susdit, seront pour les fins de cette pétition traités comme représentant la compagnie, et la compagnie ne comparaîtra pas autrement à l'audition de telle pétition.

14. Lorsqu'une pétition pour ratifier un projet est présentée, les directeurs, ou la majeure partie d'eux, demanderont au juge en chambre de fixer un jour auquel cette pétition pourra être entendue, ce jour ne devant pas être avant l'expiration de trois semaines à compter de la date de la demande, et ils feront insérer un avis de la présentation de cette pétition dans la *Gazette du Canada* et dans deux papiers-nouvelles circulant dans la province du district dans lequel le bureau principal de la compagnie est situé, selon que le juge décidera. Cet avis indiquera le jour où le projet est déposé, et le jour où la pétition a été présentée, et le jour où elle sera entendue, et le nom et l'adresse du solliciteur et de l'agent à Ottawa (s'il y en a) de la compagnie, et pourra être en la forme n° 4 dans l'annexe ci-jointe, avec les variations que les circonstances exigeront.

15. La pétition ne sera appelée pour audition avant au moins vingt et un jours francs après l'insertion de cet avis comme susdit. Cet avis sera, au moins une fois chaque semaine qui s'écoulera entre le temps de sa première insertion et le jour auquel cette pétition est fixé pour audition, encore inséré dans la *Gazette du Canada* et dans deux papiers-nouvelles comme susdit au jour ou aux jours que le juge ordonnera.

16. Tout créancier, actionnaire ou autre personne dont les droits ou intérêts sont lésés par ce projet, et qui désirent être entendus en opposition à sa confirmation, devra, au moins sept jours francs avant le jour auquel la pétition pour confirmation doit être entendue, souscrire une obligation de comparaître au greffe du registraire et déposer un état imprimé des objections à icelle, et à défaut de ce faire n'aura pas droit d'être entendu, sauf avec la permission spéciale de la cour.

17. Toute personne souscrivant ainsi une obligation de comparaître sera réputée s'être soumise à la juridiction de la cour quant au paiement des frais et autrement.

CONFIRMATION DU PROJET.

18. Nul projet ne sera censé avoir été confirmé par la cour tant que ce projet et l'ordre le confirmant n'auront pas été transcrits dans le registre.

19. Si l'ordre pour confirmer un projet n'est pas opposé, le projet et cet ordre pourront être transcrits immédiatement. Si l'ordre est opposé avis de l'ordre sera, au moins une fois chaque semaine qui s'écoulera entre le prononcé de cet ordre et l'expiration de trente jours à compter du prononeé d'icelui, inséré dans la *Gazette du Canada*, et tels deux autres papiers-nouvelles qui auront été choisis par le juge pour l'insertion d'annonces en vertu de la 14e règle. Et ce projet d'ordre ne sera pas inscrit avant l'expiration de trente jours à compter du jour où l'ordre a été prononcé, ni avant que la *Gazette du Canada* et les papiers-nouvelles contenant ces avis n'aient été produits au registraire.

DISPOSITIONS GÉNÉRALES.

20. Tous les ordres rendus en chambre en vertu de l'*Acte des chemins de fer*, 1903, seront dressées en chambre, à moins que le registraire n'ait été spécialement chargé de les dresser, et seront inscrits de la même manière que les autres ordres dressés en chambre.

21. Dans les cas non expressément prévus par le dit acte ou par le présent ordre, les ordres généraux et de pratique des cours, en tant qu'ils pourront s'y appliqués et ne seront pas incompatibles avec le dit acte ou le présent ordre, s'appliqueront à toutes les procédures de la cour en vertu du présent acte.

22. Le pouvoir de la cour et du juge en chambre de prolonger ou raccourcir le temps fixé pour faire un acte ou intenter une procédure, et de donner instruction quant à la marche des procédures en vertu du dit acte, seront les mêmes que dans les procédures sous la juridiction ordinaire de la cour.

23. Le tarif des honoraires de temps à autre en vigueur dans la présente cour, s'appliquera aux procédures en vertu du dit acte et des présents règlements, et de plus, l'honoraire payable au registraire pour le dépôt d'un projet de concordat sera de cinq piastres ($5.00).

24. Le présent ordre s'appliquera à tous les projets déposés sous l'empire du dit acte et à toutes les procédures intentées sous l'empire du dit acte ; pourvu, toutefois, que toutes les procédures prises sous l'empire du dit acte avant que le présent ordre vienne en vigueur, auront la même validité que si le présent ordre n'avait pas été rendu.

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 28 de mars 1905, du ministre suppléant de l'Intérieur, énonçant qu'en conformité du par. 1 de l'article 19 de l'*Acte des terres fédérales*, chapitre 54 des Statuts revisés, un tarif de prix pour le paiement des arpentages de subdivision de township faits à l'entreprise a été fixé par arrêtés en conseil du 3 de février 1903 et le 19 de février 1904.

Le Ministre recommande que les première et quinzième clauses du dit tarif soient cancellées et remplacées par les suivantes :—

1. Les lignes de section seront payées au taux de trois piastres et cinquante centins par mille de ligne arpentée.

15. Un paiement au taux que l'Arpenteur général allouera, mais n'excédant pas deux piastres par mille arpenté de ligne extérieure de township ou de section, peut être fait pour la détermination de la direction astronomique des lignes d'arpentage.

Mardi, le 11e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un memorandum daté le 21 mars 1905, du ministre suppléant de l'Intérieur, énonçant que des indemnités pour rations, pension et effets de campement, sont accordées à l'arpenteur en charge d'un parti d'arpenteurs par arrêté en conseil du 26 octobre 1894, les clauses relatives aux dites allocations étant comme suit :—

9. Il sera accordé à l'arpenteur pour lui-même et chaque homme de son parti une indemnité de rations de cinquante centins par jour tant qu'il sera en campagne.

11. Pour les repas, pension et frais d'hôtellerie de lui-même et de son parti lorsqu'ils sont en campagne, il sera alloué à l'arpenteur, en sus de l'indemnité de rations, une somme de vingt-huit centins par jour

pour lui-même et quatre centins pour chaque autre membre du parti.

12. Les effets de campement appartiendront à l'arpenteur et seront fournis par lui. Pour leur usage il recevra lorsque en campagne vingt-deux centins par jour pour lui-même et un centin par jour pour chaque autre membre du parti.

Le Ministre dit de plus que par arrêtés en conseil du 24 avril 1897, et du 16 mai 1899, l'indemnité de pension et d'effets de campement allouée à l'aide sont la même que pour l'arpenteur en charge, lorsque l'aide est un arpenteur fédéral ou provincial.

Le Ministre dit de plus qu'il a été représenté de la part des arpenteurs que vu la hausse générale dans les prix durant les dernières années, surtout dans les prix des provisions de bouche, les indemnités sont devenues insuffisantes pour nourrir et équiper convenablement les hommes d'un parti d'arpentage. Il est démontré aussi que l'arpenteur en charge d'un petit parti souffre d'un plus grand désavantage, le coût par homme pour la nourriture et l'équipement étant plus élevé que pour un grand parti.

Le Ministre recommande, afin que les arpenteurs puissent être capables de faire face à leurs frais, et que les petits partis soient mis sur un pied plus favorable, que les clauses 9, 11 et 12 de l'arrêté en conseil du 26 octobre 1894, et des arrêtés en conseil du 24 avril 1897, et 16 mai 1899, soient cancellés et remplacés par ce qui suit :—

1. Il sera accordé à l'arpenteur en charge d'un parti d'arpentage un indemnité spéciale pour rations de une piastre par jour pour le parti, cette indemnité étant payée aussi longtemps que l'arpenteur restera en campagne. Il recevra aussi une indemnité ordinaire pour rations de cinquante-cinq centins par jour pour lui-même et chaque membre de son parti tant qu'ils seront en campagne.

2. Pour repas, pension et frais d'hôtellerie pour lui-même et son parti, il sera aussi alloué à l'arpenteur, en sus de l'indemnité de rations, une somme de quarante centins par jour pour lui-même et quatre centins par jour pour chaque autre membre de son parti tant qu'ils seront en campagne.

3. Les effets de campement appartiendront à l'arpenteur et seront fournis par lui. Pour leur usage il lui sera alloué tant qu'il est en campagne quarante centins par jour pour lui-même et six centins par jour sur chaque autre membre du parti.

4. Lorsqu'un aide est régulièrement nommé comme tel par le ministre de l'Intérieur, les indemnités de pension et d'effets de campement seront de vingt-cinq centins et dix centins par jour respectivement.

Le comité soumet ce qui précède à l'approbation.

JOHN J. McGEE,
43-4 Greffier du Conseil privé.

## MINISTÈRE DE L'AGRICULTURE.

OTTAWA, 9 avril 1905.

PAR et en vertu de l'autorité qui m'est conférée par l'arrêté en conseil du 30 mars 1904, contenant des règlements relatifs à la quarantaine des animaux, j'ordonne par le présent—

1. Que tous les wagons à bestiaux destinés au transport des animaux d'un point en Canada en destination des Etats-Unis, ou pour transit sur le territoire des Etats-Unis à toute partie du Canada, doivent être parfaitement nettoyés et désinfectés avant que ces animaux n'y soient placés.

2. Que tous wagons transportant des animaux des Etats-Unis en Canada, que ces animaux soient destinés pour des endroits en Canada, ou pour passer en transit à quelque autre partie des Etats-Unis, doivent être inspectés, et s'ils ne sont pas trouvés nets et en bon état sanitaire, seront renvoyés aux Etats-Unis.

3. Que tous les wagons à bestiaux, d'origine canadienne ou non, qui entrent des Etats-Unis en Canada, doivent, s'ils n'indiquent pas avoir déjà été ainsi traités, être parfaitement nettoyés et désinfectés, à la satisfaction des inspecteurs de ce ministère, autrement ils seront renvoyés aux Etats-Unis.

4. Que les wagons à bestiaux qui ont transporté des animaux des Etats-Unis à des endroits en Canada, doivent être parfaitement nettoyés et désinfectés immédiatement après avoir été déchargés, et avant d'être renvoyés au pays d'où ils viennent.

5. Que les animaux destinés à être exportés aux Etats-Unis, ou pour passer en entrepôt sur ce pays-là pour être exportés à d'autres pays, peuvent être inspectés aux endroits et sous les conditions que le Ministre fixera de temps à autre.

6. Qu'après le 31 de mai 1905, tous les wagons transportant des porcs des Etats-Unis en Canada, qu'ils soient destinés à passer en transit à quelque autre partie des Etats-Unis, ou à des endroits en Canada, doivent être munis d'arrête-pieds de dix pouces, à la satisfaction des inspecteurs de ce ministère.

Ce règlement ne s'applique pas aux porcs qui ont subi la période de quarantaine établie par l'article 45 de l'arrêté en conseil du 30 mars 1904.

7. Que la pratique de doucher ou arroser d'eau les porcs des Etats-Unis, ou les wagons qui contiennent des porcs des Etats-Unis, quand ils traversent le Canada, est strictement défendue.

8. Que les porcs des Etats-Unis, passant en transit en Canada, ne doivent pas être déchargés des wagons qui les contiennent sous aucun prétexte que ce soit.

9. Que tout animal qui meurt d'une cause quelconque tandis qu'il passe en transit en Canada d'un point des Etats-Uuis à un autre point dans ce pays-là, ne doit pas être enlevé du wagon dans lequel il est mort tant qu'il est sur territoire canadien.

## AVIS AUX NAVIGATEURS.

No. 23 de 1905.

(*Avis de l'Atlantique No.* 15.)

Tous les relèvements, à moins d'avis contraire, sont magnétiques et sont donnés venant de la mer, les milles sont des milles marins, les hauteurs sont au-dessus des hautes eaux, et toutes les profondeurs sont à l'eau basse moyenne.

### QUÉBEC.

(52) FLEUVE SAINT-LAURENT. — CLOCHE SOUS-MARINE ÉTABLIE AU BATEAU-FEU DE L'ILE ROUGE.

Le bateau-feu de l'île Rouge a été muni d'une cloche sous-marine ; dans les temps de brume cette cloche sonnera le numéro du bateau-feu " 3 " toutes les 14 secondes, comme suit :—trois coups à des intervalles de deux secondes, suivis d'un intervalle de dix secondes.

De légères variations pourraient arriver dans ces intervalles, dues aux diverses pressions d'air ou de vapeur employées pour actionner le signal.

Les vaisseaux munis de récepteurs devraient entendre la cloche sous-marine à cinq milles de distance et la localiser en dedans d'un quart du point. Les vaisseaux qui ne sont pas ainsi équipés devraient recevoir un signal d'avertissement dans la distance d'un ou deux milles, se basant sur le tirant d'eau et la construction du navire. Ceci devrait s'entendre à un observateur au-dessous de la ligne d'eau et tout près de la coque du vaisseau. A. aux N. No. 23 (52) 4-4-05.

(53) FLEUVE SAINT-LAURENT—EMBOUCHURE DE LA RIVIÈRE SAGUENAY—BATTURE PRINCE—BOUÉE A GAZ REMPLACÉE PAR UN BATEAU-FEU—CLOCHE SOUS-MARINE.

A l'ouverture de la navigation en 1905, la bouée à gaz marquant la batture Prince, à l'entrée de la rivière Saguenay, fleuve Saint-Laurent, sera supprimée et remplacée par un bateau-feu en fer (autrefois stationné à la Traverse d'en bas) mouillé dans la même position, dans 4 brasses d'eau sur le bord sud de celle des deux pièces le plus à l'ouest.

Lat. N. 48° 6′ 30″
Long. O. 69 36 50

L'appareil lumineux est dioptrique, et consiste de trois feux fixes, arrangés comme ci-dessous :—Un feu blanc à une élévation de 31 pieds au-dessus de l'eau à la tête du grand mât, un feu blanc à une élévation de

25 pieds au-dessus de l'eau à la tête du mât de misaine et un feu rouge sur un étai entre les deux mâts à une élévation de 49 pieds au-dessus de l'eau. Ces feux devraient être visibles à 9 milles.

La coque du vaisseau est peinturée en rouge avec les mots " Prince Shoal " et le numéro du vaisseau " No. 7 " en lettres blanches sur chaque côté. Le jour une boule rouge est hissée sur le grand mât ; si le vaisseau s'éloigne de sa station la boule ou le feu du grand mât ne sera pas montré.

En temps de brume un sifflet à vapeur sur le vaisseau donnera des sons de 12 secondes de durée, avec intervalles de 48 secondes entre les sons.

Le bateau-feu a été muni d'une cloche sous-marine qui sonnera le numéro du bateau-feu " 7 " toutes les 22 secondes en temps de brume, comme suit :—Sept coups à des intervalles de deux secondes, suivis d'un intervalle de dix secondes.

De légères variations pourraient arriver dans ces intervalles, dues aux diverses pressions d'air ou de vapeur employées pour actionner le signal.

Les vaisseaux munis de récepteurs devraient entendre la cloche sous-marine à sept milles de distance et la localiser en dedans d'un quart du point. Les vaisseaux qui ne sont pas ainsi équipés devraient recevoir un signal d'avertissement dans la distance d'un ou deux milles, se basant sur le tirant d'eau et la construction du navire. Ceci devrait s'entendre à un observateur au-dessous de la ligne d'eau et tout près de la coque du vaisseau.

De légères variations pourraient arriver dans ces intervalles, dues aux diverses pressions d'air ou de vapeur employées pour actionner le signal.

"3. That nothing herein contained shall be deemed to affect the power of their Lordships to order the Appellant in an Appeal referred by Your Majesty to their Lordships to take out Appearance Orders or to be excused from taking out Appearance Orders in any case in which their Lordships shall think fit so to order and generally to give such directions as to the time at which and the conditions on which an Appeal so referred as aforesaid shall be set down as in the opinion of their Lordships the circumstances of the case may require.

## ORDERS IN COUNCIL.

[Ref. 19,250A.]

AT THE GOVERNMENT HOUSE AT OTTAWA

Thursday, the 20th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 17th February, 1905, from the Minister of the Interior, submitting that a number of Jewish settlers were allowed, in July, 1904, to establish a colony under the hamlet system and the north west quarter of Section 36, Township 19, Range 1, W.P.M., upon which these settlers built their houses, was reserved for the purposes of the hamlet. This parcel of land was the homestead of one Jacob Bender the chief mover in the matter and it was decided to cancel his entry and he was to be allowed to take up a homestead entry elsewhere.

The Minister states that the several parties interested, according to the report of the Homestead Inspector, agreed to buy the N. E. ¼ of the same section for Mr. Bender in lieu of his having given up his homestead. This land was reported by the Swamp Lands Commissioners as Swamp land by report, dated 27th August, 1902, but was at the time withheld from transfer because of a reservation against it. It is now clear for transfer to the Province.

The Minister further states that the Agent of Dominion Lands at Winnipeg reports that the Provincial Lands Commissioner is willing to take the land over as Swamp land and sell it to Mr. Bender at $2.00 per acre and that the money provided by the community for the purpose for Mr. Bender is in the hands of the Immigration Department at Winnipeg.

The Minister, therefore, recommends that the North East quarter of Section 36, Township 19, range 1, W. P. M. be vested in His Majesty King Edward VII for the purposes of the Province of Manitoba, under the provisions of the fourth section of chapter 47 of the Revised Statutes of Canada.

The Committee submit the same for approval.

JOHN J. McGEE,
46-4 Clerk of the Privy Council.

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Governor General in Council is pleased, in virtue of the provisions of section 31 of the Dominion Lands Act, chapter 54 of the Revised Statutes of Canada, to order that the lands hereinafter described which formed part of the reservation set apart for the purposes of the Royal North West Mounted Police by the Order in Council of the 19th March, 1887, shall be and the same are hereby withdrawn from the operation of the said Order in Council, and granted to the Canadian Pacific and Calgary and Edmonton Railways as right of way, station grounds and extra land, namely :—

*Firstly.* All that portion of the north west quarter of Section two of Township 9, Range 26, west of the 4th Meridian which lies to the south of a line drawn parallel with, and nine hundred and one feet perpendicularly distant northerly from the south boundary of the said quarter-section.

*Secondly.* All that portion of Section three of the said Township 9, Range 26, west of the 4th Meridian, which lies between two lines parallel with and each said line being one hundred feet perpendicularly distant on opposite sides from the centre line of the Crow's Nest Pass Branch of the Canadian Pacific Railway as the same is now constructed across said land and lands adjoining the same, and all that portion of the north half of said Section three which lies to the South of the southern limit of the land taken for the right of way as above described, all as shown on a plan of survey of said railway, signed by L. C. Charlesworth, Dominion Land Surveyor, on the 13th January, A.D. 1904, and of record in the Department of the Interior under number 10078, a duplicate whereof is on file in the Land Titles Office for the South Alberta Land Registration District at Calgary as Number Railway 31, and

*Thirdly.* All that portion of the north west quarter of the said Section three which is bounded towards the north by the northern limit of the land taken for right of way of the Extension of the Calgary and Edmonton Railway, as the same is now constructed across the said land and lands adjoining the same, and as shown upon a plan of the said railway, signed by B. J. Saunders, Dominion Land Surveyor, on the 3rd day of December, A.D. 1898, and of record in the Department of Interior under Number 10700, a duplicate whereof is on file in the Land Titles Office for Land Registration District of South Alberta, under No. Ry. 5, towards the west by the west boundary of the said quarter-section and towards the south by the northern limit of the land taken for right of way, of the Crow's Nest Pass Branch of the Canadian Pacific Railway, as above mentioned. All the lands hereinbefore described, containing by admeasurement, together, eighty-eight and two hundredths (88.02) acres, more or less.

JOHN J. McGEE,
46-4 Clerk of the Privy Council.

[Ref. 19,258A.]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 20th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 4th March, 1905, from the Acting Minister of the Interior stating that the Honourable Hewitt Bostock was permitted to purchase at the rate of $2.00 per acre under the authority of an Order in Council dated 10th March, 1904, the following lands in Township 19, Range 14, west 6th meridian, in the Forty Mile Railway Belt in the Province of British Columbia, containing a total area of 868 acres, namely :

| | |
|---|---|
| E. ½ of Section 28..... | 311 acres. |
| S. W. ¼ of Section 28..... | 160 " |
| W. ½ of Section 27..... | 317 " |
| W. ½ of S. E. ¼ of Section 27..... | 80 " |
| | 868 acres. |

The Minister further states that it was subsequently represented, however, that a portion of the lands in question had been squatted upon, and it has now been ascertained that the S. W. ¼ and the W. ½ of the S. E. ¼ of Section 27, are required for homesteading purposes.

The Minister further states that Mr. Bostock has signified his willingness to relinquish the lands so required, namely :—the S. W. ¼ and the W. ½ of the S. E. ¼, Section 27, provided he is permitted to purchase in lieu thereof the N. ½ of Section 21, in the same township, containing 318 acres, which is available for that purpose and which is included in his grazing lease.

The Minister therefore recommends that the N. ½ of Section 21, Township 19, Range 14, west Sixth Meridian, be substituted for the S. W. ¼ and the W. ½ of the S. E. ¼ of Section 27, in the same Township, and that Mr. Bostock be permitted to purchase this half section at the same rate as that at which he was permitted to purchase the other lands specified in the Order in Council of the 10th March, 1904, above referred to.

The Committee submit the same for approval.

JOHN J. McGEE,
46-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 26th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS by paragraph (*b*) of subsection 3 of the first section of the Act to amend the Steamboat Inspection Act, 3 Edward VII, chapter 66 (1903) it is provided that when "satisfactory evidence has been "produced that any country outside of Canada, has "steamboat inspection laws approximating the Steam-"boat Inspection Laws of Canada, and the steamboats "of such countries have unexpired certificates of "inspection issued by the proper authorities of such "countries, the Governor in Council may direct that "they shall be subjected to no other inspection than "may be necessary to satisfy the Canadian Inspectors "that the condition of the steamboat, her boiler, ma-"chinery and life-saving equipment are as stated in "the current certificate of inspection, but no such cer-"tificate of inspection shall be accepted as valid in "Canada except when held by steamboats of a country "which has by its laws accorded to steamboats of "Canada going to and from that country the same "privilege as is hereby accorded to steamboats of that "country."

And whereas the Minister of Marine and Fisheries has received assurance that the unexpired certificates of inspection held by Canadian Steamboats plying to and from ports in the United States will be accepted without any further inspection than is necessary to satisfy the United States Inspectors that the condition of the steamboat, her boiler, machinery and life-saving equipment are as stated in the Canadian current certificate of inspection.

Therefore, the Governor General in Council is pleased to order that unexpired certificates issued by the lawful authorities of the United States shall be accepted in Canada, as evidence of lawful inspection of a United States Steamship plying to and from Canada, and that no further inspection shall be required beyond the inspection necessary to satisfy the Canadian Inspectors that the condition of the steamer's boilers, machinery and life-saving equipment is as stated in the United States current certificate of inspection.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 11th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Governor General in Council is pleased, in virtue of the provisions of The Dominion Lands Act, chapter 54 of the Revised Statutes of Canada, to authorize the Minister of the Interior to issue leases of School Lands in the Province of Manitoba for Hay Cutting purposes on the same terms and conditions as those under which leases are issued for the same purposes of School Lands in the North-west Territories, that is to say :—

(1.) That the lease shall be for a term not exceeding five years, but shall be revokable at any time during its currency should the Minister of the Interior deem it advisable in the interests of the School Lands Endowment Fund to offer the land so leased for sale by public auction, or for any other reason, provided however, that the lessee shall in such case be given one year's notice of the intention of the Department to terminate the lease.

(2.) That the lessee shall not be entitled on the termination of the lease for compensation for any improvements made by him on the land.

(3.) That a lease shall not issue to any person for more than one section or for less than one quarter section.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 11th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Memorandum, dated 21st March, 1905, from the Acting Minister of the Interior, stating that allowances for rations, board and camp equipage are granted to the surveyor in charge of a survey party by Order in Council of October 26th, 1894, the clauses relating to the said allowances being as follows :—

9. The surveyor shall be allowed for himself and every man of his party a ration allowance of fifty cents per diem while in the field.

11. For meals, board and hotel expenses of himself and party while in the field, the surveyor shall be allowed, in addition to the ration allowance, a sum of twenty-eight cents per diem for himself and four cents per diem for every other member of the party.

12. Camp equipage shall be owned and furnished by the surveyor. For its use he shall be allowed while in the field twenty-two cents per day for himself and six cents per day for every other member of the party.

The Minister further states that, by Orders in Council of April 24th, 1897, and May 16th, 1899, the board and camp equipages allowances for the Assistant are made the same as for the surveyor in charge, when the Assistant is a Dominion or Provincial Land Surveyor.

The Minister further states that it has been represented on behalf of the surveyors that owing to the general increase in prices during recent years, specially in the prices of food supplies, the allowances have become inadequate and are no longer sufficient to feed and equip properly the men of a survey party. It is also pointed out that the surveyor in charge of a small party is at a greater disadvantage, the cost per man for food and equipment being higher than for a large party.

The Minister recommends in order that surveyors may be able to meet their expenses and that small parties may be placed on a more favourable footing, that clauses 9, 11 and 12 of the Order in Council of October 26th, 1894, and the Orders in Council of April 24th, 1897, and May 16th, 1899, be cancelled and the following clauses substituted :—

1. The surveyor in charge of a survey party shall be allowed a special ration allowance of one dollar per day for the party, such allowance to be paid as long as the surveyor remains in the field. He shall further be allowed an ordinary ration allowance of fifty-five cents per day for himself and every member of his party while in the field.

2. For meals, board and hotel expenses of himself and party the surveyor shall be allowed, in addition to the ration allowance, a sum of forty cents per day for himself and four cents per day for every other member of his party while in the field.

3. Camp equipage shall be owned and furnished by the surveyor. For its use he shall be allowed while in the field forty cents per day for himself and six cents per day for every other member of the party.

4. When an Assistant is regularly appointed as such by the Minister of the Interior the board and camp equipage allowances for him shall be twenty-five cents and ten cents per day respectively.

The Committee submit the same for approval.

JOHN J. McGEE,
43–4 Clerk of the Privy Council.

## ARRETÉS EN CONSEIL.

[Renv. 19,250 A.]

HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 20e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 17 de février 1905, du ministre de l'Intérieur, soumettant que certains colons juifs eurent la permission, en juillet 1904, d'établir une colonie d'après le système de hameau, et le quart nord-ouest de la section 36, township 19, rang 1 à l'ouest du principal méridien, sur lequel ces colons construisirent leurs maisons, fut réservé pour les fins du hameau. Ce lopin de terre était le homestead d'un nommé Jacob Bender, le promoteur de l'affaire, et il fut décidé de canceller son inscription, et il lui fut permis de prendre un autre homestead ailleurs.

Le Ministre dit que les diverses parties intéressées, suivant le rapport de l'inspecteur des homesteads, s'entendirent pour acheter le ¼ N.-E. de la même section pour M. Bender en compensation du homestead qu'il avait cédé. Par un rapport du 27 d'août 1902 des commissaires des terrains marécageux cette terre est déclarée terrain marécageux, mais dans le temps il ne voulurent pas le transférer à cause d'une réserve qui y était attachée. Aujourd'hui rien n'empêche qu'il soit transféré à la province.

Le Ministre dit de plus que l'agent des terres fédérales à Winnipeg fait rapport que le commissaire des terres provinciales est prêt à prendre la terre comme terrain marécageux et de la vendre à M. Bender au prix de $2 l'acre, et que l'argent prélevé par la communauté pour M. Bender est entre les mains du département de l'immigration à Winnipeg.

A ces causes, le Ministre recommande que le quart nord-est de la section 36, township 19, rang 1 à l'ouest du principal méridien, soit attribué à Sa Majesté le Roi Edouard VII pour les fins de la province du Manitoba, en vertu des dispositions du quatrième article du chapitre 47 des Statuts revisés du Canada.

Le comité soumet ce qui précède à l'approbation.

JOHN J. McGEE,
46-4 Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mercredi, le 26e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

ATTENDU que par le paragraphe (*b*) de la sous-clause 3 du premier article de l'Acte modifiant l'Acte concernant l'inspection des bateaux à vapeur, 3 Edouard VII, chapitre 66 (1903), il est statué que "lorsqu'il est prouvé d'une façon satisfaisante qu'un pays autre que le Canada a des lois d'inspection pour les bateaux à vapeur analogues à la loi d'inspection du Canada, le Gouverneur en conseil peut décréter que les bateaux à vapeur de tel pays qui sont porteurs d'actes d'inspection de la part des autorités qu'il appartient dans tel pays, lesquels actes d'inspection ne sont pas expirés, ne seront assujétis à l'inspection que dans la mesure nécessaire pour convaincre les inspecteurs canadiens que l'état du bateau à vapeur, ses chaudières, ses machines et ses appareils de sauvetage sont conformes aux énoncés de l'acte d'inspection en cours ; mais nul tel acte d'inspection ne sera accepté comme valide au Canada qui ne sera pour un bateau à vapeur d'un pays dont les lois accordent aux bateaux à vapeur canadiens qui naviguent entre le Canada et ce pays le même privilège qui est par le présent accordé aux bateaux à vapeur du dit pays."

Et attendu que le ministre de la Marine et des Pêcheries a reçu l'assurance que les certificats d'inspection non expirés portés par des bateaux à vapeur canadiens naviguant entre des ports des Etats-Unis et ce pays seront acceptés sans autre inspection que celle nécessaire pour satisfaire les inspecteurs des Etats-Unis que l'état du bateau à vapeur, de ses chaudières et machines et appareils de sauvetage est tel que mentionné dans le certificat d'inspection canadien en cours,—

A ces causes, il plaît au Gouverneur général en conseil d'ordonner que les certificats non expirés délivrés par les autorités légales des Etats-Unis seront acceptés en Canada comme preuve de l'inspection légale d'un bateau à vapeur des Etats-Unis et le Canada, et que nulle autre inspection ne sera exigée autre que l'inspection nécessaire pour convaincre les inspecteurs canadiens que l'état des chaudières, machines et appareils de sauvetage des bateaux à vapeur est tel qu'énoncé dans le certificat d'inspection des Etats-Unis en cours.

46-3 Greffier du Conseil privé.

11. Nul ordre en vertu de l'article 285 du dit acte pour interdire une action contre la compagnie, pour la raison qu'un projet a été déposé, ne sera rendu sauf avec l'entente que la compagnie sera responsable des dommages-intérêts (s'il y en a) que la cour ou le juge pourra juger à propos d'adjuger dans le cas où le demandeur serait plus tard tenu de procéder avec cette action ; et aux autres conditions (s'il y en a) que la cour ou le juge croira raisonnables.

### PÉTITION POUR CONFIRMATION DU PROJET.

12. Chaque pétition pour la confirmation d'un projet sera présentée par les directeurs ou la majeure partie d'eux. Cette pétition n'énoncera pas le projet, mais y référera seulement, et peut être en la forme No 3 de l'annexe ci-jointe, avec les variations que les circonstances exigeront.

13. Les pétitionnaires qui présenteront cette pétition comme susdit, seront pour les fins de cette pétition traités comme représentant la compagnie, et la compagnie ne comparaîtra pas autrement à l'audition de telle pétition.

14. Lorsqu'une pétition pour ratifier un projet est présentée, les directeurs, ou la majeure partie d'eux, demanderont au juge en chambre de fixer un jour auquel cette pétition pourra être entendue, ce jour ne devant pas être avant l'expiration de trois semaines à compter de la date de la demande, et ils feront insérer un avis de la présentation de cette pétition dans la *Gazette du Canada* et dans deux papiers-nouvelles circulant dans la province du district dans lequel le bureau principal de la compagnie est situé, selon que le juge décidera. Cet avis sera, au moins une fois chaque semaine qui s'écoulera entre le temps de sa première insertion et le jour auquel cette pétition est fixé pour audition, encore inséré dans la *Gazette du Canada* et dans deux papiers-nouvelles comme susdit au jour ou aux jours que le juge ordonnera.

16. Tout créancier, actionnaire ou autre personne dont les droits ou intérêts sont lésés par ce projet, et qui désirent être entendus en opposition à sa confir-

mation, devra, au moins sept jours francs avant le jour auquel la pétition pour confirmation doit être entendue, souscrire une obligation de comparaître au greffe du registraire et déposer un état imprimé des objections à icelle, et à défaut de ce faire n'aura pas droit d'être entendu, sauf avec la permission spéciale de la cour.

17. Toute personne souscrivant ainsi une obligation de comparaître sera réputée s'être soumise à la juridiction de la cour quant au paiement des frais et autrement.

CONFIRMATION DU PROJET.

18. Nul projet ne sera censé avoir été confirmé par la cour tant que ce projet et l'ordre le confirmant n'auront pas été transcrits dans le registre.

19. Si l'ordre pour confirmer un projet n'est pas opposé, le projet et cet ordre pourront être transcrits immédiatement. Si l'ordre est opposé avis de l'ordre sera, au moins une fois chaque semaine qui s'écoulera entre le prononcé de cet ordre et l'expiration de trente jours à compter du prononeé d'icelui, inséré dans la *Gazette du Canada*, et tels deux autres papiers-nouvelles qui auront été choisis par le juge pour l'insertion d'annonces en vertu de la 14e règle. Et ce projet d'ordre ne sera pas inscrit avant l'expiration de trente jours à compter du jour où l'ordre a été prononcé, ni avant que la *Gazette du Canada* et les papiers-nouvelles contenant ces avis n'aient été produits au registraire.

DISPOSITIONS GÉNÉRALES.

20. Tous les ordres rendus en chambre en vertu de l'*Acte des chemins de fer*, 1903, seront dressées en chambre, à moins que le registraire n'ait été spécialement chargé de les dresser, et seront inscrits de la même manière que les autres ordres dressés en chambre.

21. Dans les cas non expressément prévus par le dit acte ou par le présent ordre, les ordres généraux et de pratique des cours, en tant qu'ils pourront s'y appliqués et ne seront pas incompatibles avec le dit acte ou le présent ordre, s'appliqueront à toutes les procédures de la cour en vertu du présent acte.

22. Le pouvoir de la cour et du juge en chambre de prolonger ou raccourcir le temps fixé pour faire un acte ou intenter une procédure, et de donner instruction quant à la marche des procédures en vertu du dit acte, seront les mêmes que dans les procédures sous la juridiction ordinaire de la cour.

23. Le tarif des honoraires de temps à autre en vigueur dans la présente cour, s'appliquera aux procédures en vertu du dit acte et des présents règlements, et de plus, l'honoraire payable au registraire pour le dépôt d'un projet de concordat sera de cinq piastres ($5.00).

24. Le présent ordre s'appliquera à tous les projets déposés sous l'empire du dit acte et à toutes les procédures intentées sous l'empire du dit acte ; pourvu, toutefois, que toutes les procédures prises sous l'empire du dit acte avant que le présent ordre vienne en vigueur, auront la même validité que si le présent ordre n'avait pas été rendu.

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 28 de mars 1905, du ministre suppléant de l'Intérieur, énonçant qu'en conformité du par. 1 de l'article 19 de l'*Acte des terres fédérales*, chapitre 54 des Statuts revisés, un tarif de prix pour le paiement des arpentages de subdivision de township faits à l'entreprise a été fixé par arrêtés en conseil du 3 de février 1903 et le 19 de février 1904.

1. Les lignes de section seront payées au taux de trois piastres et cinquante centins par mille de ligne arpentée.

15. Un paiement au taux que l'Arpenteur général allouera, mais n'excédant pas deux piastres par mille arpenté de ligne extérieure de township ou de section, peut être fait pour la détermination de la direction astronomique des lignes d'arpentage.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 11e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un memorandum daté le 21 mars 1905, du ministre suppléant de l'Intérieur, énonçant que des indemnités pour rations, pension et effets de campement, sont accordées à l'arpenteur en charge d'un parti d'arpenteurs par arrêté en conseil du 26 octobre 1894, les clauses relatives aux dites allocations étant comme suit :—

9. Il sera accordé à l'arpenteur pour lui-même et chaque homme de son parti une indemnité de rations de cinquante centins par jour tant qu'il sera en campagne.

11. Pour les repas, pension et frais d'hôtellerie de lui-même et de son parti lorsqu'ils sont en campagne, il sera alloué à l'arpenteur, en sus de l'indemnité de rations, une somme de vingt-huit centins par jour pour lui-même et quatre centins pour chaque autre membre du parti.

12. Les effets de campement appartiendront à l'arpenteur et seront fournis par lui. Pour leur usage il recevra lorsque en campagne vingt-deux centins par jour pour lui-même et un centin par jour pour chaque autre membre du parti.

Le Ministre dit de plus que par arrêtés en conseil du 24 avril 1897, et du 16 mai 1899, l'indemnité de pension et d'effets de campement allouée à l'aide sont la même que pour l'arpenteur en charge, lorsque l'aide est un arpenteur fédéral ou provincial.

Le Ministre dit de plus qu'il a été représenté de la part des arpenteurs que vu la hausse générale dans les prix durant les dernières années, surtout dans les prix des provisions de bouche, les indemnités sont devenues insuffisantes pour nourrir et équiper convenablement les hommes d'un parti d'arpentage. Il est démontré aussi que l'arpenteur en charge d'un petit parti souffre d'un plus grand désavantage, le coût par homme pour la nourriture et l'équipement étant plus élevé que pour un grand parti.

Le Ministre recommande, afin que les arpenteurs puissent être capables de faire face à leurs frais, et que les petits partis soient mis sur un pied plus favorable, que les clauses 9, 11 et 12 de l'arrêté en conseil du 26 octobre 1894, et des arrêtés en conseil du 24 avril 1897, et 16 mai 1899, soient cancellés et remplacés par ce qui suit :—

1. Il sera accordé à l'arpenteur en charge d'un parti d'arpentage un indemnité spéciale pour rations de une piastre par jour pour le parti, cette indemnité étant payée aussi longtemps que l'arpenteur restera en campagne. Il recevra aussi une indemnité ordinaire pour rations de cinquante-cinq centins par jour pour lui-même et chaque membre de son parti tant qu'ils seront en campagne.

2. Pour repas, pension et frais d'hôtellerie pour lui-même et son parti, il sera aussi alloué à l'arpenteur, en sus de l'indemnité de rations, une somme de quarante centins par jour pour lui-même et quatre centins par jour pour chaque autre membre de son parti tant qu'ils seront en campagne.

3. Les effets de campement appartiendront à l'arpenteur et seront fournis par lui. Pour leur usage il lui sera alloué tant qu'il est en campagne quarante centins par jour pour lui-même et six centins par jour sur chaque autre membre du parti.

4. Lorsqu'un aide est régulièrement nommé comme tel par le ministre de l'Intérieur, les indemnités de pension et d'effets de campement seront de vingt-cinq centins et dix centins par jour respectivement.

Le comité soumet ce qui précède à l'approbation.

JOHN J. McGEE,
43-4 Greffier du Conseil privé.

## AVIS AUX NAVIGATEURS.

No. 23 de 1905.

(*Avis de l'Atlantique No.* 15.)

Tous les relèvements, à moins d'avis contraire, sont magnétiques et sont donnés venant de la mer, les milles sont des milles marins, les hauteurs sont au-dessus des hautes eaux, et toutes les profondeurs sont à l'eau basse moyenne.

### QUÉBEC.

(52) FLEUVE SAINT-LAURENT. — CLOCHE SOUS-MARINE ÉTABLIE AU BATEAU-FEU DE L'ILE ROUGE.

Le bateau-feu de l'île Rouge a été muni d'une cloche sous-marine ; dans les temps de brume cette cloche sonnera le numéro du bateau-feu "3" toutes les 14 secondes, comme suit :—trois coups à des intervalles de deux secondes, suivis d'un intervalle de dix secondes.

De légères variations pourraient arriver dans ces intervalles, dues aux diverses pressions d'air ou de vapeur employées pour actionner le signal.

Les vaisseaux munis de récepteurs devraient entendre la cloche sous-marine à cinq milles de distance et la localiser en dedans d'un quart du point. Les vaisseaux qui ne sont pas ainsi équipés devraient recevoir un signal d'avertissement dans la distance d'un ou deux milles, se basant sur le tirant d'eau et la construction du navire. Ceci devrait s'entendre à un observateur au-dessous de la ligne d'eau et tout près de la coque du vaisseau. A. aux N. No. 23 (52) 4-4-05.

A l'ouverture de la navigation en 1905, la bouée à gaz marquant la batture Prince, à l'entrée de la rivière Saguenay, fleuve Saint-Laurent, sera supprimée et remplacée par un bateau-feu en fer (autrefois stationné à la Traverse d'en bas) mouillé dans la même position, dans 4 brasses d'eau sur le bord sud de celle des deux pièces le plus à l'ouest.

| Lat. | N. 48° | 6′ | 30″ |
| Long. | O. 69 | 36 | 50 |

L'appareil lumineux est dioptrique, et consiste de trois feux fixes, arrangés comme ci-dessous :—Un feu blanc à une élévation de 31 pieds au-dessus de l'eau à la tête du grand mât, un feu blanc à une élévation de 25 pieds au-dessus de l'eau à la tête du mât de misaine et un feu rouge sur un étai entre les deux mâts à une élévation de 49 pieds au-dessus de l'eau. Ces feux devraient être visibles à 9 milles.

La coque du vaisseau est peinturée en rouge avec les mots "Prince Shoal" et le numéro du vaisseau "No. 7" en lettres blanches sur chaque côté. Le jour une boule rouge est hissée sur le grand mât ; si le vaisseau s'éloigne de sa station la boule ou le feu du grand mât ne sera pas montré.

En temps de brume un sifflet à vapeur sur le vaisseau donnera des sons de 12 secondes de durée, avec intervalles de 48 secondes entre les sons.

Le bateau-feu a été muni d'une cloche sous-marine qui sonnera le numéro du bateau-feu "7" toutes les 22 secondes en temps de brume, comme suit :—Sept coups à des intervalles de deux secondes, suivis d'un intervalle de dix secondes.

De légères variations pourraient arriver dans ces intervalles, dues aux diverses pressions d'air ou de vapeur employées pour actionner le signal.

Les vaisseaux munis de récepteurs devraient entendre la cloche sous-marine à sept milles de distance et la localiser en dedans d'un quart du point. Les vaisseaux qui ne sont pas ainsi équipés devraient recevoir un signal d'avertissement dans la distance d'un ou deux milles, se basant sur le tirant d'eau et la construction du navire. Ceci devrait s'entendre à un observateur au-dessous de la ligne d'eau et tout près de la coque du vaisseau.

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

## ORDERS IN COUNCIL.

AT THE GOVERNMENT HOUSE AT OTTAWA

Tuesday, the 2nd day of May, 1905.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

THE Governor General in Council, in virtue of the provisions of sections 22 and 245 of the Customs Act, is pleased to order that Grand'Mère and Shawenegan Falls, in the Province of Quebec, be made an Outport of Customs and Warehousing Port under the survey of the Port of Quebec.

JOHN J. McGEE,
47-3 Clerk of the Privy Council.

[Ref. 19,258A.]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 20th day of April, 1905.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 4th March, 1905, from the Acting Minister of the Interior stating that the Honourable Hewitt Bostock was permitted to purchase at the rate of $2.00 per acre under the authority of an Order in Council dated 10th March, 1904, the following lands in Township 19, Range 14, west 6th meridian, in the Forty Mile Railway Belt in the Province of British Columbia, containing a total area of 868 acres, namely:

| | |
|---|---|
| E. ½ of Section 28..... | 311 acres. |
| S. W. ¼ of Section 28..... | 160 " |
| W. ½ of Section 27..... | 317 " |
| W. ½ of S. E. ¼ of Section 27..... | 80 " |
| | 868 acres. |

The Minister further states that it was subsequently represented, however, that a portion of the lands in question had been squatted upon, and it has now been ascertained that the S. W. ¼ and the W. ½ of the S. E. ¼ of Section 27, are required for homesteading purposes.

The Minister further states that Mr. Bostock has signified his willingness to relinquish the lands so required, namely:—the S. W. ¼ and the W. ½ of the S. E. ¼, Section 27, provided he is permitted to purchase in lieu thereof the N. ½ of Section 21, in the same township, containing 318 acres, which is available for that purpose and which is included in his grazing lease.

The Minister therefore recommends that the N. ½ of Section 21, Township 19, Range 14, west Sixth Meridian, be substituted for the S. W. ¼ and the W. ½ of the S. AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 20th day of April, 1905.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 17th February, 1905, from the Minister of the Interior, submitting that a number of Jewish settlers were allowed, in July, 1904, to establish a colony under the hamlet system and the north west quarter of Section 36, Township 19, Range 1, W.P.M., upon which these settlers built their houses, was reserved for the purposes of the hamlet. This parcel of land was the homestead of one Jacob Bender the chief mover in the matter and it was decided to cancel his entry and he was to be allowed to take up a homestead entry elsewhere.

The Minister states that the several parties interested, according to the report of the Homestead Inspector, agreed to buy the N. E. ¼ of the same section for Mr. Bender in lieu of his having given up his homestead. This land was reported by the Swamp Lands Commissioners as Swamp land by report, dated 27th August, 1902, but was at the time withheld from transfer because of a reservation against it. It is now clear for transfer to the Province.

The Minister further states that the Agent of Dominion Lands at Winnipeg reports that the Provincial Lands Commissioner is willing to take the land over as Swamp land and sell it to Mr. Bender at $2.00 per acre and that the money provided by the community for the purpose for Mr. Bender is in the hands of the Immigration Department at Winnipeg.

The Minister, therefore, recommends that the North East quarter of Section 36, Township 19, range 1, W. P. M. be vested in His Majesty King Edward VII for the purposes of the Province of Manitoba, under the provisions of the fourth section of chapter 47 of the Revised Statutes of Canada.

The Committee submit the same for approval.

JOHN J. McGEE,
46-4 Clerk of the Privy Council.

ORGANIZATION.

* HIGHER COMMANDS.

In consequence of the establishment of the Militia Council and the abolition of the office of General Officer Commanding, it has been found necessary to reorganize the existing administration of the militia outside the headquarters office.

The Militia authorities at headquarters are charged essentially with the administration of the militia force. They assume the responsibility for what is to be done in all questions affecting the militia, but the actual executive commands and the issuing of orders for carrying them out are the duties of the executive commanders outside the headquarters staff offices and in the military districts throughout the country.

To ensure the proper performance of these duties of executive command, the powers conferred by Article 21 of the Militia Act, 1904, have been invoked, and the existing military districts have been grouped together and placed under the command of selected officers, who will be charged within the limits of these new commands with the executive duties formerly exercised at headquarters by the General Officer Commanding.

The exercise of these powers will, it is hoped, train senior officers in initiative and the acceptance of responsibilities, such as will necessarily be imposed upon them in time of war.

The four superior military divisions which will be designated commands, are as follows :—

*Western Ontario Command.*

Nos. 1 and 2 Military Districts with headquarters at Toronto, Ontario.

*Eastern Ontario Command.*

Nos. 3 and 4 Military Districts with headquarters at Kingston, Ont.

*Quebec Command.*

Nos. 5, 6 and 7 Military Districts with headquarters at Montreal, P.Q

*Maritime Provinces Command.*

Nos. 8, 9 and 12 Military Districts with headquarters at Halifax, N.S.

Each of the officers selected for these commands will, until further orders, himself command and administer the district in which the headquarters of the command are located and will command and administer the other district or other districts within his command through their respective District Officers Commanding.

Thus, the officer commanding the Western Ontario Command will command Military District No. 2, personally, and Military District No. 1 through the District Officer Commanding that district.

The officer holding the Quebec Command will command Military District No. 5 personally, and Military Districts Nos. 6 and 7 through their District Officers Commanding.

The colonel commanding Eastern Ontario Command will command Military District No. 3 personally, and Military District No. 4 through its District Officer Commanding.

The colonel commanding Maritime Provinces Command will command Military District No. 9 personally, and Military Districts Nos. 8 and 12 through their respective District Officers Commanding.

The fortresses of Quebec and Kingston will be under the jurisdiction of the officers holding the Quebec and Eastern Ontario commands respectively.

The officers holding these commands will exercise executive military command over the troops located therein, will be the representatives of the Militia Council within their commands, and, subject to the King's Regulations and Orders for the Militia and the directions of the Militia Council, will be responsible therein for—

(1) The efficiency, discipline, and interior economy of the troops.

(2) The military training of the officers and soldiers under their command.

(3) The arrangements for mobilization and maintenance of mobilization equipment.

(4) Maintenance of armament, works and buildings.

(5) Economical control of all expenditure whether money, supplies or stores.

(6) The proper conduct of all departmental services.

(7) Compilation of the necessary estimates for such services.

(8) Recruiting and discharges.

Until further orders, the powers entrusted to these officers will be limited to the following subjects, which they will be charged with, under the direction of the Militia Council, in addition to those already exercised by the District Officer Commanding, viz :—

A. *Discipline.*—The discipline of the Active and Permanent Militia, including the power of convening District Courts Martial, and confirming their proceedings, provided the sentences confirmed do not exceed 6 months I.H.L. in the case of privates or reduction in the case of non-commissioned officers.

B. *Service.*—All matters affecting the enlistment, enrolment, reckoning of service and discharge of men of the Active and Permanent Militia, except discharges for unfitness for the duties of an instructional corps.

C. *Training.*—The drill and training of all corps of the Active and Permanent Militia and Cadet Corps.

D. *Instruction.*—The control of all schools of instruction within the command, as regards the detail of officers for courses, the instruction and accommodation of officers and men of the Active Militia attached, and the interior economy of the schools, including messes and canteens.

E. *Inspection.*—The inspection of barracks, armouries and other government buildings, of arms, ammunition, equipment, clothing and stores of all description in charge of units of the Active and Permanent Militia, except technical Artillery, Engineer, and Medical Stores.

F. *Equipment.*—The issue and return to store of arms, ammunition, equipment and stores required by units within the command within the scales laid down by King's Regulations and Orders for the Militia and the Equipment Regulations for the Militia.

G. *Leave.*—The grant of leave or furlough within Canada to officers and soldiers of the active and permanent militia, for periods not exceeding one month per annum.

H. *Returns.*—The collection of all returns, states, &c., necessary for the administration of units of the active and permanent militia within the command, and the collation of such returns, states, &c., as are required by militia headquarters.

The remaining District Officers Commanding will continue to carry on the same duties and exercise the same powers as at present, but under the orders and supervision of the officers holding the higher commands.

Upon the officer holding the higher command will fall the responsibility for the inspection of and report on all units of the permanent force of active militia within the command.

The following will be the staff for each of the new commands :—

Commanding officer.
1 Staff lieutenant-colonel or major.
1 Deputy assistant adjutant general.

With the following heads of departments :—
1 Senior Army Service Corps officer.
1 Principal medical officer.
1 Senior Ordnance Stores Corps officer.
1 Principal veterinary officer.
2 Military staff clerks.

All correspondence, returns, etc., for headquarters, from the subordinate District Officers Commanding, will be transmitted through the officers holding the higher commands.

The changes outlined in the foregoing order will take effect from the 1st May proximo.

Paras. 217, 1131 & 1132, King's Regulations and Orders, 1904, are hereby cancelled, in so far as they may conflict with the provisions of this general order.

MONSIEUR,—J'ai l'honneur de vous transmettre, pour le renseignement de votre gouvernement et pour publication dans la colonie, copie d'un arrêté du Roi en conseil en date du 20 de mars 1905 modifiant la pratique relative à la signification de mandats de comparution à des intimés qui ont fait défaut de comparaître lors d'un appel à Sa Majesté en conseil.

J'ai l'honneur d'être,
Monsieur,
Votre très obéissant serviteur,
ALFRED LYTTELTON.

A l'administrateur
du Gouvernement du Canada.

—

AU CHATEAU DE BUCKINGHAM,

Le 20e jour de mars 1905.

PRÉSENTS.

SA TRÈS EXCELLENTE MAJESTÉ LE ROI.

L'ARCHEVÊQUE DE CANTORBERY,
LE LORD PRÉSIDENT,
LORD SUFFIELD,
SIR WILLIAM WALROND.

ATTENDU que ce jour, a été lue devant le Conseil une représentation du Comité judiciaire du Conseil privé, datée le 16e jour de mars 1905, et dans les mots suivants :—

"Les Lords du Comité Judiciaire du Conseil privé ayant pris en considération la pratique par laquelle un appel à Sa Majesté en conseil ne peut, en l'absence d'un ordre spécial à cet égard rendu par Leurs Seigneuries, être inscrit pour audition *ex parte* contre un intimé à l'appel qui a fait défaut de souscrire une obligation de comparaître à l'appel dans le registre du Conseil privé, à moins que l'appelant n'ait préalablement obtenu de Leurs Seigneuries deux mandats successifs communément appelés "mandats de comparution" exigeant que le dit intimé souscrive une obligation de comparaître à l'appel dans les délais respectivement fixés par les dits mandats, et ait dûment publié les dits mandats en les affichant au Royal Exchange ou ailleurs de la manière ordinaire, et à moins que les dits délais ainsi fixés par les dits mandats comme susdit ne soient expirés. Et étant d'avis que la dite pratique est incommode et devrait en certains cas et sujette à certaines conditions être abolie,—Leurs Seigneuries ce jourd'hui s'accordent humblement à recommander à Votre Majesté de décréter comme suit, savoir :—

"1. Que dans le cas où un intimé dans un appel à Sa Majesté en conseil dont le nom a été inscrit sur le rôle de l'appel par le tribunal qui admet l'appel, manque de souscrire une obligation de comparaître à l'appel dans le registre du Conseil privé, et qu'il appert d'après le double du rôle dans l'appel, ou d'après le certificat de l'officier du tribunal transmettant le double du rôle au registraire du Conseil privé que le dit intimé a reçu avis de l'ordre admettant l'appel à Votre Majesté en conseil, ou de l'ordre de Votre Majesté en conseil donnant à l'appelant une permission spéciale d'interjeter appel à Votre Majesté en conseil (selon le cas) et a aussi reçu avis de la dépêche du dit double du rôle au registraire du Conseil privé, l'appelant ne sera pas, sauf toute instruction de Leurs Seigneuries au contraire, tenu de lever des mandats de comparution demandant au dit intimé de souscrire une obligation de comparaître à l'appel, et l'appel, peut, sauf comme susdit, être inscrit pour audition *ex parte* contre le dit intimé en tout temps après l'expiration de trois mois de calendrier à compter de la date du dépôt de la pétition en appel de l'appelant, de la même manière que si les dits mandats de comparution avaient été levés par le dit appelant, et que les délais respectivement fixés pour que le intimé souscrive une obligation de comparaître étaient expirés.

"2. Que dans le cas où un intimé dans un appel à Votre Majesté en conseil dont le nom a été inscrit sur le rôle de l'appel par un ordre de Votre Majesté en conseil, manque de souscrire une obligation de comparaître à l'appel dans le registre du Conseil privé, et qu'il appert d'après le double du rôle, ou d'après un rôle supplémentaire en appel, ou d'après un certificat de l'officier du tribunal transmettant le dit double du rôle ou rôle supplémentaire au régistraire du Conseil privé, que le dit intimé a été dûment notifié de toute demande à Votre Majesté en conseil de l'inscrire sur le rôle comme intimé dans l'appel, l'appelant ne sera pas, sauf toute instruction de Leurs Seigneuries au contraire, tenu de lever des mandats de comparution demandant à l'intimé de souscrire une obligation de comparaître en appel, et l'appel pourra, sauf comme susdit, être inscrit pour audition *ex parte* contre l'intimé en tout temps après l'expiration de trois mois de calendrier à compter de la date à laquelle le dit intimé a été signifié d'une copie de l'ordre de Votre Majesté en conseil l'inscrivant sur le rôle de l'appel de la même manière que si les dits mandats de comparution avaient été levés par l'appelant et que les délais respectivement fixés pour que le dit intimé souscrive une obligation de comparaître étaient expirés.

"3. Que rien de contenu au présent ne sera censé affecter le pouvoir qu'ont Leurs Seigneuries d'ordonner à l'appelant dans un appel référé par Votre Majesté à Leurs Seigneuries de lever des mandats de comparution, ou de l'exempter de lever des mandats de comparution chaque fois que Leurs Seigneuries jugeront à propos de l'ordonner ainsi, et généralement de donner les instructions quant au temps auquel et les conditions dans lesquelles un appel ainsi référé comme suit sera inscrit, selon que Leurs Seigneuries le jugeront judicieux dans les circonstances.

"4. Que le présent ordre s'appliquera à tous appels dans lesquels une pétition en appel sera déposée après la date du présent."

Sa Majesté, ayant pris la dite représentation en considération, par et avec l'avis de Son Conseil privé, a bien voulu l'approuver, ainsi que ce qu'elle recommande. Ce dont les intéressés sont requis de prendre avis, et de se conduire en conséquence.

47–3 W. A. FITZROY.

### HOTEL DU GOUVERNEMENT À OTTAWA

Mardi, le 2e jour de mai 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît au Gouverneur général en conseil, en vertu des dispositions des articles 22 et 245 de l'*Acte des douanes*, d'ordonner que Grand'Mère et Shawenegan Falls, dans la province de Québec, soient constitués en un port secondaire de douane et d'entreposage sous le contrôle du port de Québec.

47-3 Greffier du Conseil privé.

### HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 20e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 17 de février 1905, du ministre de l'Intérieur, soumettant que certains colons juifs eurent la permission, en juillet 1904, d'établir une colonie d'après le système de hameau, et le quart nord-ouest de la section 36, township 19, rang 1 à l'ouest du principal méridien, sur lequel ces colons construisirent leurs maisons, fut réservé pour les fins du hameau. Ce lopin de terre était le homestead d'un nommé Jacob Bender, le promoteur de l'affaire, et il fut décidé de canceller son inscription, et il lui fut permis de prendre un autre homestead ailleurs.

Le Ministre dit que les diverses parties intéressées, suivant le rapport de l'inspecteur des homesteads, s'entendirent pour acheter le ¼ N.-E. de la même section pour M. Bender en compensation du homestead qu'il avait cédé. Par un rapport du 27 d'août 1902 des commissaires des terrains marécageux cette terre est déclarée terrain marécageux, mais dans le temps il ne voulurent pas le transférer à cause d'une réserve qui y était attachée. Aujourd'hui rien n'empêche qu'il soit transféré à la province.

Le Ministre dit de plus que l'agent des terres fédérales à Winnipeg fait rapport que le commissaire des terres provinciales est prêt à prendre la terre comme terrain marécageux et de la vendre à M. Bender au prix de $2 l'acre, et que l'argent prélevé par la communauté pour M. Bender est entre les mains du département de l'immigration à Winnipeg.

A ces causes, le Ministre recommande que le quart nord-est de la section 36, township 19, rang 1 à l'ouest du principal méridien, soit attribué à Sa Majesté le Roi Edouard VII pour les fins de la province du Manitoba, en vertu des dispositions du quatrième article du chapitre 47 des Statuts revisés du Canada.

Le comité soumet ce qui précède à l'approbation.

JOHN J. McGEE,
46-4 Greffier du Conseil privé.

### HOTEL DU GOUVERNEMENT À OTTAWA.

Mercredi, le 26e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

ATTENDU que par le paragraphe (*b*) de la sous-clause 3 du premier article de l'Acte modifiant l'Acte concernant l'inspection des bateaux à vapeur, 3 Edouard VII, chapitre 66 (1903), il est statué que "lorsqu'il est prouvé d'une façon satisfaisante qu'un pays autre que le Canada a des lois d'inspection pour les bateaux à vapeur analogues à la loi d'inspection du Canada, le Gouverneur en conseil peut décréter que les bateaux à vapeur de tel pays qui sont porteurs d'actes d'inspection de la part des autorités qu'il appartient dans tel pays, lesquels actes d'inspection ne sont pas expirés, ne seront assujétis à l'inspection que dans la mesure nécessaire pour convaincre les inspecteurs canadiens que l'état du bateau à vapeur, ses chaudières, ses machines et ses appareils de sauvetage sont conformes aux énoncés de l'acte d'inspection en cours ; mais nul tel acte d'inspection ne sera accepté comme valide au Canada qui ne sera pour un bateau à vapeur d'un pays dont les lois accordent aux bateaux à vapeur canadiens qui naviguent entre le Canada et ce pays le même privilège qui est par le présent accordé aux bateaux à vapeur du dit pays."

Et attendu que le ministre de la Marine et des Pêcheries a reçu l'assurance que les certificats d'inspection non expirés portés par des bateaux à vapeur canadiens naviguant entre des ports des Etats-Unis et ce pays seront acceptés sans autre inspection que celle nécessaire pour satisfaire les inspecteurs des Etats-Unis que l'état du bateau à vapeur, de ses chaudières et machines et appareils de sauvetage est tel que mentionné dans le certificat d'inspection canadien en cours,—

A ces causes, il plaît au Gouverneur général en conseil d'ordonner que les certificats non expirés délivrés par les autorités légales des Etats-Unis seront acceptés en Canada comme preuve de l'inspection légale d'un bateau à vapeur des Etats-Unis et le Canada, et que nulle autre inspection ne sera exigée autre que l'inspection nécessaire pour convaincre les inspecteurs canadiens que l'état des chaudières, machines et appareils de sauvetage des bateaux à vapeur est tel qu'énoncé dans le certificat d'inspection des Etats-Unis en cours.

Campbell, pour le privilège d'exploiter le passage d'eau sur la rivière Ottawa entre Ross' Point, Québec, et un point immédiatement vis-à-vis dans le township de McNab, dans le comté de Renfrew, lequel passage a nom "Bristol Ferry," et accordé pour cinq ans à compter du 1er jour de mai 1902, soit cancellé.

IL plaît au Gouverneur général en conseil, en vertu des dispositions de l'*Acte des terres fédérales*, chapitre 54 des Statuts revisés du Canada, d'autoriser le ministre de l'Intérieur à émettre des baux de terres des écoles dans la province du Manitoba pour y couper du foin, aux mêmes termes et conditions que les baux émis pour les mêmes fins dans les territoires du Nord-Ouest, savoir :—

(1.) Que le bail sera pour un terme n'excédant pas cinq ans, mais sera révocable en tout temps durant son cours si le ministre de l'Intérieur le juge à propos dans l'intérêt du fonds de dotation des terres des écoles d'offrir la terre ainsi affermée en vente à l'enchère publique, ou pour toute autre raison, pourvu toutefois, que le locataire recevra dans ce cas un an d'avis de l'intention du ministère de terminer le bail.

(2.) Que le locataire n'aura pas droit, à l'expiration du bail, à aucune indemnité pour des améliorations faites par lui sur la terre.

(3.) Qu'un bail ne sera pas émis à aucune personne pour plus d'une section ou pour moins d'un quart de section.

(4.) Que dans le cas où il n'y a qu'un requérant pour un bail, la redevance sera au taux de vingt-cinq centins par acre par année, payable annuellement d'avance.

Mais quand il y a plus d'un requérant le bail sera offert à l'enchère à un prix de départ de vingt-cinq centins par acre par année.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 28 de mars 1905, du ministre suppléant de l'Intérieur, énonçant qu'en conformité du par. 1 de l'article 19 de l'*Acte des terres fédérales*, chapitre 54 des Statuts revisés, un tarif de prix pour le paiement des arpentages de subdivision de township faits à l'entreprise a été fixé par arrêtés en conseil du 3 de février 1903 et le 19 de février 1904.

Le Ministre recommande que les première et quinzième clauses du dit tarif soient cancellées et remplacées par les suivantes :—

1. Les lignes de section seront payées au taux de trois piastres et cinquante centins par mille de ligne arpentée.

ORGANISATION.

* COMMANDEMENTS SUPÉRIEURS.

En conséquence de l'établissement du Conseil de la Milice et l'abolition de la charge d'officier général commandant, on a trouvé nécessaire de réorganiser la présente administration de la milice en dehors du bureau au quartier général.

Les autorités militaires au quartier général ont surtout pour fonctions l'administration des troupes de la milice. Ils prennent la responsabilité de ce qui est fait dans toutes questions touchant la milice, mais les commandements exécutifs réels et l'émission d'ordres pour les faire exécuter appartiennent aux commandants exécutifs en dehors des bureaux de l'état-major au quartier général et dans les districts militaires par tout le pays.

Afin d'assurer l'accomplissement convenable de ces devoirs de commandement exécutif, les pouvoirs conférés par l'article 21 de l'*Acte de la milice*, 1904, ont été invoqués, et les districts militaires existants ont été groupés ensemble et placés sous le commandement d'officiers choisis, qui seront chargés dans les limites de ces nouveaux commandements des devoirs exécutifs autrefois exercés au quartier général par l'officier général commandant.

L'exercice de ces pouvoirs aura l'effet, nous l'espérons, de dresser les plus anciens officiers dans l'initiative et l'acceptation des responsabilités qui leur seront nécessairement imposés en temps de guerre.

Les quatre divisions militaires supérieures qui seront désignées commandements, sont comme ci-dessous :—

*Commandement d'Ontario-Ouest.*

Les districts militaires Nos 1 et 2, avec chef-lieu à Toronto, Ont.

*Commandement d'Ontario-Est.*

Les districts militaires 3 et 4, avec chef-lieu à Kingston, Ont.

*Commandement de Québec.*

Les districts militaires Nos 5, 6 et 7, avec chef-lieu à Montréal, Qué.

*Commandement des provinces maritimes.*

Les districts militaires Nos 8, 9 et 12, avec chef-lieu à Halifax, N.-E.

Jusqu'à nouvel ordre, chacun des officiers choisis pour ces commandements, commandera et administrera lui-même le district dans lequel le chef-lieu du commandement est situé, et commandera et administrera l'autre district ou les autres districts dans les limites de son commandement par l'entremise des officiers commandants de district.

Ainsi, l'officier commandant le commandement d'Ontario-Ouest commandera le district militaire No 2 personnellement, et le district militaire No 1 par l'entremise de l'officier commandant de ce district.

L'officier qui aura le commandement de Québec commandera le district militaire No 5 personnellement, et les districts militaires Nos 6 et 7 par l'entremise des officiers commandants de ces districts.

Le colonel commandant le commandement d'Ontario-Est commandera le district militaire No 3 personnellement, et le district militaire No 4 par l'entremise de l'officier commandant de ce district.

Le colonel commandant le commandement des Provinces Maritimes commandera le district militaire No 9 personnellement, et les districts militaires Nos 8 et 12 par l'entremise des officiers commandants de ces districts.

Les forteresses de Québec et Kingston seront sous la juridiction des officiers exerçant les commandements de Québec et d'Ontario-Est respectivement.

Les officiers ayant ces commandements exerceront un commandement militaire exécutif sur les troupes qui y seront stationnées, seront les représentants du Conseil de la Milice dans leurs commandements, et sujet aux Ordonnances du Roi pour la milice et les instructions du Conseil de la Milice, y seront responsables—

(1) de l'efficacité, discipline et économie interne des troupes ;

(2) de l'instruction militaire des officiers et soldats sous leur commandement ;

(3) des arrangements pour la mobilisation et entretien de l'équipement de mobilisation ;

(4) de l'entretien de l'armement, des ouvrages et bâtiments ;

(5) du contrôle économique de toute dépense, soit en deniers, en approvisionnements ou en matériel ;

(6) de la conduite convenable de tous les services administratifs ;

(7) de la compilation des estimations nécessaires pour ces services ;

(8) du recrutement et des libérations.

Jusqu'à nouvel ordre, les pouvoirs dévolus à ces officiers seront limités aux sujets suivants, qu'ils auront à remplir sous la direction du Conseil de la Milice, en sus de ceux déjà exercés par l'officier commandant de district, savoir :—

A. *Discipline.*—La discipline de la milice active et permanente, y compris le pouvoir de convoquer les cours martiales de district, et confirmer les procédures, pourvu que les sentences confirmées n'excèdent pas 6 mois avec travaux forcés dans le cas de simples soldats, ou de rétrogradation dans le cas de sous-officiers.

B. *Service.*—Toutes questions concernant l'enrôlement, la durée de service et la libération des hommes de la milice active et permanente, sauf le congédiement pour incapacité dans les devoirs d'un corps enseignant.

C. *Entraînement.*—Les exercices et l'entraînement de tous les corps de la milice active et permanente, et des corps d'élèves militaires.

D. *Instruction.*—Le contrôle de toutes les écoles d'instruction dans le commandement, quant à ce qui concerne les officiers désignés pour les cours, l'instruction et logement des officiers et hommes de la milice active attachés, et l'économie interne des écoles, y compris les mess et cantines.

E. *Inspection.* — L'inspection des casernes, salles d'armes et autres bâtiments du gouvernement, des armes, des munitions, de l'équipement, des effets d'habillement et du matériel de toutes sortes confiés à des unités de la milice active et permanente, à l'exception des assortiments techniques de l'artillerie, du génie et du service de santé.

F. *Equipement.*—La distribution et la rentrée en magasin des armes, munitions, équipement et provisions nécessaires aux unités dans le commandement dans la mesure des échelles établies par les Ordonnances du Roi pour la milice et les règlements d'équipement pour la milice.

G. *Congés.*—Accorder des congés ou permissions en Canada aux officiers et soldats de la milice active et permanente, pour des durées n'excédant pas un mois par année.

H. *Rapports.*—La collection de tous rapports, états, etc., nécessaires à l'administration des unités de la milice active et permanente dans le commandement, et la collection de ces rapports, états, etc., requis au quartier général de la milice.

Les autres officiers commandants des districts continueront à remplir les mêmes fonctions et exercer les mêmes pouvoirs qu'à présent, mais sous les ordres et surveillance des officiers qui tiennent les commandements supérieurs.

A l'officier tenant le plus haut commandement incombera la responsabilité de veiller à l'inspection et faire rapport de toutes unités des troupes permanentes et de la milice active dans le commandement.

Ci-suit le personnel de chacun des nouveaux commandements :—

L'officier commandant.
1 lieutenant-colonel ou major d'état-major.
1 sous-aide-adjudant général.

Avec les chefs de départements qui suivent :—
1 officier le plus ancien de l'intendance militaire.
1 directeur du service de santé.
1 officier le plus ancien des magasins militaires.
1 directeur du service vétérinaire.
2 archivistes militaires.

Toute correspondance, rapports, etc., pour le quartier général, venant des officiers commandants de districts subalternes, seront transmis par la voie des officiers occupant les commandements supérieurs.

Les changements esquissés dans l'ordre ci-dessus deviendront exécutoires le 1er de mai prochain.

Les par. 217, 1131 et 1132 des Ordonnances du Roi, 1904, sont par le présent cancellés, en tant qu'ils sont incompatibles avec les dispositions du présent ordre général.

* Publié comme Ordre général spécial le 4 avril 1905.

3. Le contrôle administratif du corps de guides étant dévolu au directeur d'entraînement et des renseignements au quartier général, l'officier des renseignements dans chaque commandement et l'officier des renseignements de district dans chaque district militaire lui sera aussi responsable administrativement de l'accomplissement technique de ses devoirs de renseignements.

4. A chaque commandement sera nommé un officier du corps de guides en qualité d'officier des renseigne-

ments lequel commandera le corps de guides dans son arrondissement.

5. A chaque district militaire et au territoire du Yukon sera nommé un officier du corps de guides en qualité d'officier des renseignements, lequel, sous le contrôle de l'officier des renseignements du commandement, commandera le corps de guides dans son district.

6*a*. Les officiers des renseignements de sous-districts rempliront les devoirs qui leur seront assignés par les officiers commandants de commandements ou de districts, à moins qu'ils soient nommés à un service spécial, dans lequel cas ils agiront sous les ordres du directeur de l'entraînement et des renseignements au quartier général.

Le nombre de ces officiers sera tel qu'autorisé pour le district conformément aux effectifs régimentaires.

7. Le corps de guides sera administré sous les ordres du directeur de l'entraînement et des renseignements par l'aide-directeur des renseignements au quartier général.

9. Les guides-chefs et guides seront répartis aux districts selon le besoin, conformément à l'effectif autorisé. Les guides seront enrôlés comme simples soldats. Les guides-chef seront nommés par le directeur de l'entraînement et des renseignements, et auront le grade autorisé par le conseil de la milice.

*Grade et autorité.*

12. Le corps de guides étant un corps combattant, ses officiers tiendront les grades et titres ordinaires d'officiers combattants, mais leur commandement et autorité ne s'étendront pas au delà du corps de guides tant qu'ils n'auront pas acquis les qualités suivantes :—

Afin de pouvoir exercer, comme officier le plus ancien présent, le commandement de troupes d'autres corps en campagne, un officier des renseignements doit obtenir le certificat requis pour le grade qu'il occupe dans le corps de guides, soit de la cavalerie, d'artillerie ou d'infanterie, à son choix.

16. Les officiers des renseignements employés aux camps annuels recevront le même taux de solde et d'allocations que les autres officiers du même grade employés en devoir spécial à ces camps.

17. Les guides-chefs et guides recevront les mêmes solde et allocations que les sous-officiers et soldats de cavalerie, et seront équipés de la même manière lorsqu'appelés en service.

18. Les officiers stationnés dans un district trop éloigné pour pouvoir assister aux camps d'exercices annuels, qui auront à remplir quelque travail spécial au lieu d'exercices en camps, et les officiers choisis qui seront employés à quelques devoirs militaires spéciaux qui les empêchent d'assister au camp, pourront recevoir la solde et les allocations pour tels devoirs, pourvu que le montant total n'excède pas le montant qu'ils auraient reçu s'ils avaient assisté au camp.

19. Autant d'officiers du corps de guides que fixera le ministre en conseil de la milice, pourront être employés au quartier général, et, avec l'adjudant sous-officier, seront inscrits à l'effectif du département des renseignements au quartier général.

20. L'allocation pour livres, port de lettres et papeterie, sera :—

### AT THE GOVERNMENT HOUSE AT OTTAWA

Therefore the Governor General in Council, in pursuance of the provisions of chapter 79 of the Revised Statutes of Canada, intituled : "An Act respecting the navigation of Canadian waters", as amended by the Act 4 Edward VII, chapter 26, is pleased to order that, in so far as the waters of Lakes Superior, Huron, including Georgian Bay, Erie and Ontario, their connecting and tributary waters, and the St. Lawrence River as far east as the lower exit of the Lachine Canal and the Victoria Bridge at Montreal are concerned, the International Regulations for preventing collisions, which have heretofore been adopted by Canada as the Rules of the Road for navigating the Great Lakes, shall be and the same are hereby cancelled.

The Governor General in Council is further pleased to order that the attached Regulations shall be and they are hereby adopted as the Regulations for preventing collisions on navigable waters for the said waters of Lake Superior, Huron, including Georgian Bay, Erie and Ontario, their connecting and tributary waters and the St. Lawrence River as far east as the lower exit of the Lachine Canal and the Victoria Bridge at Montreal, and that the same Regulations come into force on the first day of April, 1905.

---

RULES for navigating the Great Lakes, including Georgian Bay, their connecting and tributary waters and the St. Lawrence River as far East as the lower exit of the Lachine Canal and the Victoria bridge at Montreal.

PRELIMINARY.

In the following rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel ; and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The word "steam vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these Rules, when she is not at anchor, or made fast to the shore or aground.

RULES CONCERNING LIGHTS, &C.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

Article 1. The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights, which may be mistaken for the prescribed lights, shall be exhibited.

Article 2. A steam vessel when under way shall carry :—

(*a.*) On or in front of the foremast, or if a vessel without a foremast, then in the forepart of the vessel, at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible a distance of at least 5 miles.

(*b.*) On the starboard side a green light, so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

(*c.*) On the port side, a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.

(*d.*) The said green and red side-lights shall be fitted with in-board screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

(*e.*) A steam vessel when under way shall carry an additional white light similar in construction to the light mentioned in subdivision (*a*). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

Article 3. (*a.*) A steam vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in

article 2 (*a*), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam vessel shall carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

(*b.*) A steam vessel having a raft in tow shall, instead of the forward lights mentioned in clause (*a*) of this rule, carry on or in front of the foremast, or if a vessel without a foremast, than in the forepart of the vessel, at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height not less than the breadth, but such height need not exceed 40 feet, 2 bright white lights in a horizontal line athwart ships and not less than 8 feet apart, each so fixed as to throw a light all around the horizon and of such a character as to be visible at a distance of at least 5 miles ; such steamer shall also carry the small white steering light described in clause (*a*).

Article 4 (*a*). A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in article 2 (*a*), where they can best be seen, and if a steam vessel, in lieu of that light, 2 red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all around the horizon at a distance of at least 2 miles ; and shall by day carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, 2 black balls or shapes each 2 feet in diameter.

(*b.*) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in article 2 (*a*), and if a steam vessel, in lieu of that light, 3 lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all around the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line one over the other, not less than 6 feet apart where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(*c.*) The vessel referred to in this article when not making way through the water, shall not carry the side-lights, but when making way shall carry them.

(*d.*) The lights and shapes required to be shown by this article are to be taken by other vessels as signals that the vessel showing them is not under command, and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in article 31.

Article 5. A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by article 2 for a steam vessel under way, with the exception of the white lights mentioned therein, which they shall never carry.

Article 6. Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights, cannot be fixed, these lights shall be kept at hand lighted and ready for use ; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7. Steam vessels of less than 40, and vessels under oars or sails of less than 20 tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in article 2 (*a*) (*b*) and (*c*), but if they do not carry them they shall be provided with the following lights :—

1. Steam vessels of less than 40 tons shall carry,—

(*a.*) In the forepart of the vessel, or on or in front of the funnel, where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in article 2 (*a*), and of such a character as to be visible at a distance of at least 2 miles.

(*b.*) Green and red side-lights constructed and fixed as prescribed in article 2 (*b*) and (*c*), and of such a character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right ahead to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steamboats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision 1 (*b*).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to the other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars or sails, shall have ready at hand a lantern showing a white light which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this article shall not be obliged to carry the lights prescribed by article 4 (*a*) and article 11 (*c*).

Article 8. Pilot vessels, when engaged on their station on pilotage duty shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all around the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed 15 minutes. On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board, may show the white light instead of carrying it at the masthead, and may, instead of the coloured lights above mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other to be used as prescribed above.

Pilot vessels when not engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their tonnage.

Article 9. Fishing boats shall show such lights as are prescribed for vessels of their tonnage, and shall be under such further regulations as may be adopted for their protection.

Article 10. A vessel which is being overtaken by another shall show from her stern to such last mentioned vessel a white light or a flare-up light.

The white light required to be shown by this article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, so as to be visible at a distance of at least one mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

Article 11 (*a.*) A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform, and unbroken light visible all around the horizon, at a distance of at least 1 mile.

(*b.*) A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40 feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that

it shall be not less than 15 feet lower than the forward light, another such light.

The length of a vessel shall be deemed to be the length appearing on her certificate of registry.

(*c.*) A vessel aground in or near a fairway shall carry the above light or lights and the 2 red lights prescribed by article 4 (*a.*)

(*d.*) Produce boats, canal boats, fishing boats, rafts and other water craft, navigating any bay, harbour or river, by hand power, horse power, by sail or current or which shall be moored or anchored in or near the channel or fairway of any bay, harbour or river, and not otherwise provided for, shall carry one bright white light forward not less than 6 feet above the deck.

Rafts shall carry in each case on a pole not less than 6 feet high, a bright white light visible all around the horizon as follows :—Rafts of 1 crib in width and not more than 2 in length shall carry 1 such light. Rafts of 3 or more cribs in length, 1 such light on each end of the raft. Rafts of more than 1 crib abreast shall carry 1 such light on each outside corner, making 4 lights in all.

Bag or Boom rafts navigating or anchored in the fairway of any bay, harbour or river, shall carry a bright white light at least 6 feet high at each end of the raft, and 1 such light on each side midway between the forward and after end. All double ended ferryboats shall carry a central range of bright white lights showing all around the horizon, placed at equal heights forwards and aft, and shall also carry the lights specified in article 2, clauses (*b*) and (*c*).

Article 12. Every vessel may, if necessary, in order to attract attention, in addition to the lights which she is by these rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

Article 13. Nothing in these rules shall interfere with the operation of any special rules made by the government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship owners, which have been authorized by their respective governments and duly registered and published.

Article 14. A steam vessel proceeding under sail only, but having her funnel up, shall carry in daytime, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

### SOUND SIGNALS FOR FOG, &C.

Article 15. All signals prescribed by this article for vessels under way shall be given :

1. By "steam vessels" on the whistle or siren.

2. By "sailing vessels and vessels towed" on the fog horn.

The words "prolonged blast" used in this article, shall mean a blast of from to 4 to 6 seconds' duration.

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell. A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell. In fog, mist, falling snow, or heavy rain storms, whether by day or night, the signals described in this article shall be used as follows, viz :—

(*a.*) A steam vessel under way, excepting only a steam vessel with a raft in tow, shall sound at intervals of not more than 1 minute, 3 distinct blasts of her whistle.

(*b.*) Every vessel in tow of another vessel shall, at intervals of 1 minute sound 4 bells on a good and efficient properly placed bell as follows :—By striking the bell twice in quick succession, followed by a little longer interval, and then again striking twice in quick succession (as in striking 4 bells to indicate time.)

(*c.*) A steam vessel with a raft or a string of booms in tow, shall sound at intervals of not more than 1 minute a screeching or modoc whistle from 3 to 5 seconds. Only steam vessels with raft or booms in tow, shall sound this screeching whistle in thick weather.

(*d.*) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack, 1 blast, when on the port tack 2 blasts in succession, and when with the wind abaft the beam, 3 blasts in succession.

(*e.*) A vessel when at anchor shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above mentioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.

### SPEED OF SHIPS TO BE MODERATE IN FOG, &C.

Article 16. Every vessel shall, in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

### STEERING AND SAILING RULES.

*Preliminary—Risk of Collision.*

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

Article 17. When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz. :—

(*a.*) A vessel which is running free shall keep out of the way of a vessel which is close hauled.

(*b,*) A vessel which is close hauled on the port tack shall keep out of the way of a vessel which is close hauled on the starboard tack.

(*c.*) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(*d.*) When both are running free, with the wind on the same side, the vessel which is to the windward shall keep out of the way of the vessel which is to leeward.

(*e.*) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18. When two steam vessels are meeting end on or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other ; in other words, to cases, in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own ; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course ; or by night, to cases were the red light of one vessel is opposed to the red light of the other or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light or a green light without a red light, is seen ahead, or where both green and red lights are seen any where but ahead.

Article 19. When two steam vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 20. When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

Article 21. Where by any of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

NOTE.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert the collision.

(See articles 27 and 29.)

Article 22. Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23. Every steam vessel which is directed by these Rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24. Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, *i.e.*, in such a position, in reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel, and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25 (*a.*) In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

(*b.*) In all narrow channels where there is a current, and in the rivers St. Mary, St. Clair, Detroit, Niagara and St. Lawrence, when two steamers are meeting, the descending steamer shall have the right of way, and shall, before the vessels shall have arrived within the distance of half a mile of each other give the signal necessary to indicate which side she elects to take.

Article 26. Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This Rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

Article 27. In obeying and construing these Rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

SOUND SIGNALS FOR VESSELS IN SIGHT OF ONE ANOTHER.

Article 28. The word "short blast" used in this article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorized or required by these Rules, shall indicate that course by the following signals on her whistle or siren, viz.:

(*a.*) One short blast to mean: "I am directing my course to starboard."

(*b.*) Two short blasts to mean: "I am directing my course to port."

Vessels approaching each other from opposite directions are forbidden to use what has become known among pilots as "Cross signals" answering one whistle with two and answering two whistles with one.

If the pilot of a steam vessel to which a passing signal is sounded deems it unsafe to accept and assent to said signal, he shall not sound a cross signal; but in that case, and in every case where the pilot of one steamer fails to understand the course or intention of an approaching steamer, whether from signals being given or answered erroneously, or from other causes, the pilot of such steamer so receiving the first passing signal, or the pilot so in doubt, shall sound several short and rapid blasts of the whistle, not less than four; and if the vessels shall have approached within half a mile of each other both shall reduce their speed to bare steerage way, and, if necessary, stop and reverse.

(*c.*) Whenever a steamer is nearing a short bend or curve in the channel where from the height of the banks or other cause a steamer approaching from the opposite direction cannot be seen for a distance of half a mile, the pilot of such steamer, when he shall have arrived within half a mile of such bend or curve, shall give a signal by one long blast of the whistle, which signal shall be answered by a similar blast given by the pilot of any approaching vessel that may be within hearing. Should such signal be so answered by a steamer on the further side of the bend, then the usual signals for meeting and passing shall immediately be given and answered, but if the first alarm signal of such pilot be not answered, he is to consider the channel clear.

NO VESSEL UNDER ANY CIRCUMSTANCES TO NEGLECT PROPER PRECAUTIONS.

Article 29. Nothing in these rules shall exonerate any vessel or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

RESERVATION OF RULES FOR HARBOURS AND INLAND NAVIGATION.

Article 30. Nothing in these Rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

DISTRESS SIGNALS.

Article 31. When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz:—

In the day time:—

1. A gun or other explosive signal fired at intervals of about a minute;
2. The International Code signal of distress indicated by N.C.;
3. The distant signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball;
4. A continuous sounding with any fog-signal apparatus.

At night:—

1. A gun or other explosive signal fired at intervals of about a minute;
2. Flames on the vessel (as from a burning tar-barrel, oil-barrel, &c.);
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals;
4. A continuous sounding with any fog-signal apparatus.

Article 32. Rafts, while drifting or at anchor shall be governed as regards lights to be carried by article 11, clause (*d*). Whenever any raft is going in the same direction as another which is ahead, the one shall be so navigated as not to come within twenty yards of the other, and every vessel meeting or overtaking a raft shall keep out of the way thereof.

Rafts shall be so navigated and anchored as not to cause any unnecessary impediment or obstruction to vessels navigating the same waters.

DEPARTMENT OF MARINE AND FISHERIES,
OTTAWA. 48–2

[Ref. 19,250A.]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 20th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 17th February, 1905, from the Minister of the Interior, submitting that a number of Jewish settlers were allowed, in July, 1904, to establish a colony under the hamlet system and the north west quarter of Section 36, Township 19, Range 1, W.P.M., upon which these settlers built their houses, was reserved for the purposes of the hamlet. This parcel of land was the homestead of one Jacob Bender the chief mover in the matter and it was decided to cancel his entry and he was to be allowed to take up a homestead entry elsewhere.

The Minister states that the several parties interested, according to the report of the Homestead Inspector, agreed to buy the N. E. ¼ of the same section for Mr. Bender in lieu of his having given up his homestead. This land was reported by the Swamp Lands Commissioners as Swamp land by report, dated 27th August, 1902, but was at the time withheld from transfer because of a reservation against it. It is now clear for transfer to the Province.

The Minister further states that the Agent of Dominion Lands at Winnipeg reports that the Provincial Lands Commissioner is willing to take the land over as Swamp land and sell it to Mr. Bender at $2.00 per acre and that the money provided by the community for the purpose for Mr. Bender is in the hands of the Immigration Department at Winnipeg.

The Minister, therefore, recommends that the North East quarter of Section 36, Township 19, range 1, W. P. M. be vested in His Majesty King Edward VII for the purposes of the Province of Manitoba, under the provisions of the fourth section of chapter 47 of the Revised Statutes of Canada.

The Committee submit the same for approval.

JOHN J. McGEE,
46-4 Clerk of the Privy Council.

C. J. Saunders, Dominion Land Surveyor, on the 3rd day of December, A.D. 1898, and of record in the Department of Interior under Number 10700, a duplicate whereof is on file in the Land Titles Office for Land Registration District of South Alberta, under No. Ry. 5, towards the west by the west boundary of the said quarter-section and towards the south by the northern limit of the land taken for right of way, of the Crow's Nest Pass Branch of the Canadian Pacific Railway, as above mentioned. All the lands hereinbefore described, containing by admeasurement, together, eighty-eight and two hundredths (88.02) acres, more or less.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 26th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS by paragraph (*b*) of subsection 3 of the first section of the Act to amend the Steamboat Inspection Act, 3 Edward VII, chapter 66 (1903) it is provided that when "satisfactory evidence has been "produced that any country outside of Canada, has "steamboat inspection laws approximating the Steam-"boat Inspection Laws of Canada, and the steamboats "of such countries have unexpired certificates of "inspection issued by the proper authorities of such "countries, the Governor in Council may direct that "they shall be subjected to no other inspection than "may be necessary to satisfy the Canadian Inspectors "that the condition of the steamboat, her boiler, ma-"chinery and life-saving equipment are as stated in "the current certificate of inspection, but no such cer-"tificate of inspection shall be accepted as valid in "Canada except when held by steamboats of a country "which has by its laws accorded to steamboats of "Canada going to and from that country the same "privilege as is hereby accorded to steamboats of that "country."

And whereas the Minister of Marine and Fisheries has received assurance that the unexpired certificates of inspection held by Canadian Steamboats plying to and from ports in the United States will be accepted without any further inspection than is necessary to satisfy the United States Inspectors that the condition

of the steamboat, her boiler, machinery and life-saving equipment are as stated in the Canadian current certificate of inspection.

Therefore, the Governor General in Council is pleased to order that unexpired certificates issued by the lawful authorities of the United States shall be accepted in Canada, as evidence of lawful inspection of a United States Steamship plying to and from Canada, and that no further inspection shall be required beyond the inspection necessary to satisfy the Canadian Inspectors that the condition of the steamer's boilers, machinery and life-saving equipment is as stated in the United States current certificate of inspection.

[Ref. 19,258A.]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 20th day of April, 1905.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 4th March, 1905, from the Acting Minister of the Interior stating that the Honourable Hewitt Bostock was permitted to purchase at the rate of $2.00 per acre under the authority of an Order in Council dated 10th March, 1904, the following lands in Township 19, Range 14, west 6th meridian, in the Forty Mile Railway Belt in the Province of British Columbia, containing a total area of 868 acres, namely:

| | |
|---|---|
| E. ½ of Section 28..... | 311 acres. |
| S. W. ¼ of Section 28..... | 160 " |
| W. ½ of Section 27..... | 317 " |
| W. ½ of S. E. ¼ of Section 27..... | 80 " |
| | 868 acres. |

The Minister further states that it was subsequently represented, however, that a portion of the lands in question had been squatted upon, and it has now been ascertained that the S. W. ¼ and the W. ½ of the S. E. ¼ of Section 27, are required for homesteading purposes.

The Minister further states that Mr. Bostock has signified his willingness to relinquish the lands so required, namely:—the S. W. ¼ and the W. ½ of the S. E. ¼, Section 27, provided he is permitted to purchase in lieu thereof the N. ½ of Section 21, in the same township, containing 318 acres, which is available for that purpose and which is included in his grazing lease.

The Minister therefore recommends that the N. ½ of Section 21, Township 19, Range 14, west Sixth Meridian, be substituted for the S. W. ¼ and the W. ½ of the S. E. ¼ of Section 27, in the same Township, and that Mr. Bostock be permitted to purchase this half section at the same rate as that at which he was permitted to purchase the other lands specified in the Order in Council of the 10th March, 1904, above referred to.

The Committee submit the same for approval.

JOHN J. McGEE,
46-4 Clerk of the Privy Council.

AU CHATEAU DE BUCKINGHAM,

Le 20e jour de mars 1905.

PRÉSENTS.

SA TRÈS EXCELLENTE MAJESTÉ LE ROI.

L'ARCHEVÊQUE DE CANTORBERY,
LE LORD PRÉSIDENT,
LORD SUFFIELD,
SIR WILLIAM WALROND.

ATTENDU que ce jour, a été lue devant le Conseil une représentation du Comité judiciaire du Conseil privé, datée le 16e jour de mars 1905, et dans les mots suivants :—

"Les Lords du Comité Judiciaire du Conseil privé ayant pris en considération la pratique par laquelle un appel à Sa Majesté en conseil ne peut, en l'absence d'un ordre spécial à cet égard rendu par Leurs Seigneuries, être inscrit pour audition *ex parte* contre un intimé à l'appel qui a fait défaut de souscrire une obligation de comparaître à l'appel dans le registre du Conseil privé, à moins que l'appelant n'ait préalablement obtenu de Leurs Seigneuries deux mandats successifs communément appelés "mandats de comparution" exigeant que le dit intimé souscrive une obligation de comparaître à l'appel dans les délais respectivement fixés par les dits mandats, et ait dûment publié les dits mandats en les affichant au Royal Exchange ou ailleurs de la manière ordinaire, et à moins que les dits délais ainsi fixés par les dits mandats comme susdit ne soient expirés. Et étant d'avis que la dite pratique est incommode et devrait en certains cas et sujette à certaines conditions être abolie,—Leurs Seigneuries ce jourd'hui s'accordent humblement à recommander à Votre Majesté de décréter comme suit, savoir :—

"1. Que dans le cas où un intimé dans un appel à Sa Majesté en conseil dont le nom a été inscrit sur le rôle de l'appel par le tribunal qui admet l'appel, manque de souscrire une obligation de comparaître à l'appel dans le registre du Conseil privé, et qu'il appert d'après le double du rôle dans l'appel, ou d'après le certificat de l'officier du tribunal transmettant le double du rôle au registraire du Conseil privé que le dit intimé a reçu avis de l'ordre admettant l'appel à Votre Majesté en conseil, ou de l'ordre de Votre Majesté en conseil donnant à l'appelant une permission spéciale d'interjeter appel à Votre Majesté en conseil (selon le cas) et a aussi reçu avis de la dépêche du dit double du rôle au registraire du Conseil privé, l'appelant ne sera pas, sauf toute instruction de Leurs Seigneuries au contraire, tenu de lever des mandats de comparution demandant au dit intimé de souscrire une obligation de comparaître à l'appel, et l'appel, peut, sauf comme susdit, être inscrit pour audition *ex parte* contre le dit intimé en tout temps après l'expiration de trois mois de calendrier à compter de la date du dépôt de la pétition en appel de l'appelant, de la même manière que si les dits mandats de comparution avaient été levés par le dit appelant, et que les délais respectivement fixés pour que le intimé souscrive une obligation de comparaître étaient expirés.

"2. Que dans le cas où un intimé dans un appel à Votre Majesté en conseil dont le nom a été inscrit sur le rôle de l'appel par un ordre de Votre Majesté en conseil, manque de souscrire une obligation de comparaître à l'appel dans le registre du Conseil privé, et qu'il appert d'après le double du rôle, ou d'après un rôle supplémentaire en appel, ou d'après un certificat de l'officier du tribunal transmettant le dit double du rôle ou rôle supplémentaire au régistraire du Conseil privé, que le dit intimé a été dûment notifié de toute demande à Votre Majesté en conseil de l'inscrire sur le rôle comme intimé dans l'appel, l'appelant ne sera pas, sauf toute instruction de Leurs Seigneuries au contraire, tenu de lever des mandats de comparution demandant à l'intimé de souscrire une obligation de comparaître en appel, et l'appel pourra, sauf comme susdit, être inscrit pour audition *ex parte* contre l'intimé en tout temps après l'expiration de trois mois de calendrier à compter de la date à laquelle le dit intimé a été signifié d'une copie de l'ordre de Votre Majesté en conseil l'inscrivant sur le rôle de l'appel de la même manière que si les dits mandats de comparution avaient été levés par l'appelant et que les délais respectivement fixés pour que le dit intimé souscrive une obligation de comparaître étaient expirés.

"3. Que rien de contenu au présent ne sera censé affecter le pouvoir qu'ont Leurs Seigneuries d'ordonner à l'appelant dans un appel référé par Votre Majesté à Leurs Seigneuries de lever des mandats de comparution, ou de l'exempter de lever des mandats de comparution chaque fois que Leurs Seigneuries jugeront à propos de l'ordonner ainsi, et généralement de donner les instructions quant au temps auquel et les conditions dans lesquelles un appel ainsi référé comme suit sera inscrit, selon que Leurs Seigneuries le jugeront judicieux dans les circonstances.

"4. Que le présent ordre s'appliquera à tous appels dans lesquels une pétition en appel sera déposée après la date du présent."

Sa Majesté, ayant pris la dite représentation en considération, par et avec l'avis de Son Conseil privé, a bien voulu l'approuver, ainsi que ce qu'elle recommande. Ce dont les intéressés sont requis de prendre avis, et de se conduire en conséquence.

47-3 W. A. FITZROY.

## ARRETÉS EN CONSEIL.

### HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 20e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

ATTENDU qu'il est jugé à propos de modifier les règlements canadiens pour prévenir les abordages sur les grands lacs, de façon à les rendre conformes aux règlements des Etats-Unis pour la navigation des mêmes eaux,—

A ces causes il plaît au Gouverneur général en conseil, en vertu des dispositions du chapitre 79 des Statuts revisés du Canada, intitulé "Acte concernant la navigation dans les eaux canadiennes", tel que modifié par l'acte 4 Edouard VII, chapitre 26, d'ordonner que, en tant qu'il s'agit des eaux des lacs Supérieur, Huron, y compris la Baie Georgienne, Erié et Ontario, de leurs eaux tributaires, et du fleuve Saint-Laurent aussi loin à l'est que la dernière sortie du canal Lachine et du pont Victoria à Montréal, les règlements internationaux pour prévenir les abordages qui ont été adoptés par le Canada comme les règles de la route pour naviguer sur les grands lacs, soient et ils sont par le présent cancellés.

Il plaît en outre au Gouverneur général en conseil d'ordonner que les règlements ci-joints soient et ils sont par le présent adoptés comme règlements pour prévenir les abordages dans les eaux navigables des lacs Supérieur, Huron, y compris la Baie Georgienne, Erié et Ontario, leurs eaux tributaires et le fleuve Saint-Laurent aussi loin à l'est que la dernière sortie du canal Lachine et le pont Victoria à Montréal, et que les dits règlements deviennent exécutoires le premier jour d'avril 1905.

Et il plaît en outre au Gouverneur général en conseil d'ordonner que pour toutes les autres eaux canadiennes les règlements existants jusqu'à présent, resteront en vigueur et sont par le présent confirmés comme règlements pour prévenir les abordages dans les eaux navigables.

JOHN J. McGEE,
Greffier du Conseil privé.

RÈGLES—Pour la Navigation des Grands Lacs, y compris la Baie Georgienne, leurs eaux correspondantes et tributaires et le fleuve Saint-Laurent aussi loin à l'est que la dernière sortie du canal Lachine et le pont Victoria à Montréal.

DISPOSITION PRÉLIMINAIRE.

Dans les règles qui suivent tout navire à vapeur qui ne marche qu'à l'aide de ses voiles est considéré comme un navire à voiles ; et tout navire à vapeur dont la machine est en action est considéré comme navire à vapeur, qu'il se serve de ses voiles ou ne s'en serve pas.

L'expression "navire à vapeur" comprend tout navire mû par des machines.

Un navire est en "marche" dans le sens des présents règlements, lorsqu'il n'est pas à l'ancre, ou amarré au rivage, ou échoué.

RÈGLES CONCERNANT LES FEUX, ETC.

L'expression "visible" employée dans les présents règlements, au sujet des feux, signifie, visible par une nuit sombre, mais sans brume.

Art. 1. Les règlements concernant les feux seront suivis par tous les temps entre le coucher et le lever du soleil, et durant ce temps il ne sera exhibé aucun autre feu qui pourrait être pris par erreur pour un feu réglementaire.

Art. 2. Un navire à vapeur, lorsqu'il est en marche, portera les feux suivants :

(*a*) Sur ou en avant du mât de misaine, ou si c'est un navire sans mât de misaine, alors à l'avant du navire, à une hauteur de pas moins de 20 pieds au-dessus de la coque, et si le navire a plus de 20 pieds de largeur, alors à une hauteur au-dessus de la coque au moins égale à cette largeur, de façon toutefois qu'il ne soit pas besoin de porter le feu à plus de 40 pieds au-dessus de la coque, un feu brillant blanc placé de manière à fournir un rayonnement uniforme et non interrompu dans tout le parcours d'un arc horizontal de 20 quarts du compas,—établi de façon à projeter la lumière de 10 quarts de chaque côté du navire, c'est-à-dire, depuis l'avant jusqu'à 2 quarts en arrière du travers de chaque bord, et d'une portée telle qu'il puisse être visible à 5 milles au moins de distance ;

(*b*) A tribord, un feu vert, établi de façon à projeter une lumière uniforme et non interrompue sur un arc horizontal de 10 quarts du compas, placé de manière à projeter la lumière depuis l'avant jusqu'à deux quarts sur l'arrière du travers à tribord, et d'une portée telle qu'il puisse être visible à deux milles au moins de distance ;

(*c*) A bâbord, un feu rouge établi de façon à projeter une lumière uniforme et non interrompue sur un arc horizontal de 10 quarts du compas,—placé de manière à projeter la lumière depuis l'avant jusqu'à 2 points sur l'arrière du travers à bâbord, et d'une portée telle qu'il puisse être visible à 2 milles au moins de distance ;

(*d*) Ces feux de côté vert et rouge doivent être munis, en dedans du bord, d'écrans dirigés de l'arrière à l'avant et s'étendant à 3 pieds au moins en avant de la lumière, afin que le feu vert ne puisse pas être aperçu de bâbord avant, et le feu rouge de tribord avant ;

(*e*) Un navire à vapeur lorsqu'il est en marche peut porter un feu blanc supplémentaire semblable dans la forme au feu mentionné dans la subdivision (*a*). Ces deux feux seront placés en ligne avec la quille de façon qu'un feu sera au moins 15 pieds plus haut que l'autre, et dans une position telle relativement l'un à l'autre

que le feu d'en bas soit en avant de celui d'en haut. La distance verticale entre ces deux feux sera moindre que la distance horizontale.

Art. 3. (*a*) Un navire à vapeur, lorsqu'il remorque un autre navire, doit, indépendamment de ses feux de côté, porter deux feux brillants blancs placés verticalement l'un au-dessus de l'autre, à pas moins de 6 pieds de distance, et lorsqu'il remorque plus d'un navire il portera un feu blanc brillant supplémentaire placé à 6 pieds au-dessus ou au-dessous des dits feux, si la longueur de la remorque mesurée depuis l'arrière du remorqueur jusqu'à l'arrière du dernier navire remorqué excède 600 pieds. Chacun de ces feux doit être de la même construction et de la même portée et placé dans la même position que le feu blanc mentionné à l'article 2 (*a*), sauf le feu supplémentaire qui peut être porté à une hauteur d'au moins 14 pieds au-dessus de la coque.

Ce navire à vapeur peut porter un petit feu blanc en arrière de la cheminée ou de l'arrière-mât pour servir de guide au navire remorqué, mais ce feu ne doit pas être visible en avant du bau.

(*b*) Un navire à vapeur lorsqu'il remorque un radeau de bois, doit, au lieu des feux d'avant mentionnés à la clause (*a*) de la présente règle, porter sur ou en avant du mât de misaine, ou si c'est un navire sans mât de misaine, alors à l'avant du navire, à une hauteur de pas moins de 20 pieds au-dessus de la coque, et si le navire a plus de 20 pieds de largeur, alors à une hauteur au-dessus de la coque au moins égale à cette largeur, de façon toutefois qu'il ne soit pas besoin de porter le feu à plus de 40 pieds au-dessus de la coque, 2 feux brillants blancs en une ligne horizontale en travers du navire espacés d'au moins 8 pieds, établis de façon à projeter une lumière tout autour de l'horizon, et d'une telle portée qu'elle puisse être visible à 5 milles de distance au moins ; ce navire portera aussi la petite lumière blanche pour servir de guide à la remorque, décrite à la clause (*a*).

Art. 4.- (*a*) Un navire qui, à raison de quelque accident, n'obéit pas à la manœuvre, portera à la même hauteur que le feu blanc mentionné à l'article 2 (*a*), à l'endroit le plus visible, et, si c'est un navire à vapeur, au lieu de ce feu, deux feux rouges placés verticalement l'un au-dessus de l'autre à pas moins de 6 pieds de distance, et d'une nature à pouvoir être visible tout autour de l'horizon à une distance d'au moins 2 milles ; et durant le jour il portera placé verticalement l'une au-dessus de l'autre à 6 pieds au moins de distance, là où elles seront le plus visibles, deux boules ou formes noires de deux pieds de diamètre chacune.

(*b*) Un navire employé à poser ou relever un câble télégraphique, portera, dans la même position que le feu blanc mentionné à l'article 2, (*a*), et si c'est un navire à vapeur, à la place de ce feu, trois feux placés verticalement l'un au-dessus de l'autre, à pas moins de 6 pieds de distance. Le plus haut et le plus bas de ces feux seront rouges, et celui du milieu sera blanc, et ils seront d'une nature telle à pouvoir être visibles tout autour de l'horizon, à une distance d'au moins deux milles. Le jour il portera sur une ligne verticale et l'une au-dessus de l'autre à pas moins de 6 pieds de distance, là où elles seront plus visibles, trois formes d'au moins 2 pieds de diamètre, dont la plus haute et la plus basse seront rondes et de couleur rouge, et celle du milieu en forme de losange et blanche.

(*c*) Le navire ci-dessus, lorsqu'il est stationnaire, ne portera pas de feux de côté, mais lorsqu'il sera en marche il devra les porter.

(*d*) Les feux et boules mentionnés au présent article seront regardés par les autres navires comme étant un signal que le navire qui les porte n'obéit plus à la manœuvre, et ne peut, par conséquent, s'écarter de leur route.

Ces signaux ne sont pas des signaux de navires en détresse et ayant besoin de secours. De tels signaux sont contenus à l'article 31.

Art 5. Un navire à voiles, en marche, et tout navire à la remorque, doit porter les mêmes feux que prescrits par l'article 2 pour les navires à vapeur en marche, à l'exception des feux blancs, dont il ne doit jamais faire usage.

Art. 6. Lorsqu'un bâtiment en marche est d'assez faibles dimensions pour que ces feux verts et rouges ne puissent pas être fixés d'une manière permanente, par un mauvais temps, ces feux doivent néanmoins être tenus allumés sur le pont à leurs bords respectifs, et prêts à servir ; et ils seront montrés à tout navire dont il s'approchera ou qui s'en approchera, chacun de leur côté, assez à temps pour prévenir l'abordage, de manière qu'ils soient autant en vue que possible, et présentés de telle sorte que le feu vert ne puisse être aperçu du côté de bâbord, ni le feu rouge du côté de tribord, ni, si la chose est praticable, à plus de deux quarts en arrière du travers de leur bords respectifs.

Pour rendre ces prescriptions d'une application plus certaine et plus facile, les fanaux seront peints extérieurement de la couleur du feu qu'ils contiennent, et seront munis d'écrans convenables.

Art. 7. Les navires à vapeur de moins de 40 tonneaux, et les vaisseaux à rames ou à voiles de moins de 20 tonneaux de tonnage brut respectivement, et les chaloupes à rames, en marche, ne seront pas obligés de porter les feux mentionnés à l'article 2 (*a*) (*b*) et (*c*), mais s'ils ne les portent pas, ils seront munis des feux suivants :—

1. Les navires à vapeur jaugeant moins de 40 tonneaux porteront—

(*a.*) A l'avant du navire, ou sur ou en avant de la cheminée, à l'endroit où il sera le plus en vue, et à une hauteur au-dessus du plat-bord d'au moins 9 pieds, un feu brillant blanc construit et fixé tel que prescrit à l'article 2 (*a*), et de nature à être visible d'une distance d'au moins 2 milles.

(*b.*) Des feux de côté verts et rouges tel que prescrit à l'article 2 (*b*) et (*c*), et de nature à être visibles à une distance d'au moins 1 mille, ou un fanal combiné exhibant un feu vert et un feu rouge depuis l'avant jusqu'à deux quarts en arrière du travers de leurs bords respectifs. Ce fanal sera porté à au moins 3 pieds plus bas que le feu blanc.

2. Les petites chaloupes à vapeur que portent les navires de long cours pourront porter le feu blanc à une moindre hauteur que 9 pieds au-dessus du plat-bord, mais il sera porté au-dessus du fanal combiné mentionné au paragraphe 1 (*b*).

3. Les bâtiments à rames ou à voiles, jaugeant moins de 20 tonneaux tiendront toujours prêt un fanal ayant d'un côté un verre de couleur verte, et de l'autre côté un verre de couleur rouge, et à l'approche d'un autre bâtiment ce fanal sera montré en temps opportun pour prévenir l'abordage, en ayant soin que le feu vert ne puisse être aperçu de bâbord, ni le feu rouge de tribord

4. Les chaloupes à rames, qu'elles marchent à la rame ou à la voile, tiendront toujours prêt un fanal montrant au feu blanc qui sera temporairement exhibé en temps suffisant pour prévenir l'abordage.

Les vaisseaux mentionnés dans le présent article ne seront pas obligés de porter les feux prescrits par l'article 4 (*a*) et l'article 11 (*c*).

Art. 8. Les bateaux-pilotes, lorsqu'ils sont occupés au service du pilotage dans leurs circonscriptions, ne porteront pas les mêmes feux que ceux exigés pour les autres bâtiments, mais ils porteront en tête du mât un feu blanc visible de tous les points de l'horizon, et montreront de plus un feu ou des feux à éclat à de courts intervalles qui ne devront pas être de plus de 15 minutes. A l'approche ou en approchant de tous navires, ils allumeront leurs feux de côté, prêts à servir, et les exhiberont à de courts intervalles, pour indiquer la direction dans laquelle ils marchent, mais le feu vert ne sera pas montré du côté de bâbord, ni le feu rouge du côté de tribord.

Un bateau-pilote d'une classe qui l'oblige de se rendre le long d'un navire pour mettre un pilote à bord, peut montrer le feu blanc au lieu de le porter en tête du mât, et peut, au lieu des feux de couleurs mentionnés ci-dessus, tenir toujours prêt à servir, un fanal ayant un verre vert d'un côté et un verre rouge de l'autre pour être employé tel que prescrit ci-dessus.

Les bateaux-pilotes qui ne seront pas occupés au service du pilotage dans leurs circonscriptions, porteront des feux semblables à ceux des autres navires de leur tonnage.

Art. 9. Les bateaux de pêche montreront les feux prescrits pour les vaisseaux de leur tonnage, et seront assujétis à tels autres règlements qui seront adoptés pour leur protection.

Art. 10. Lorsqu'un navire est sur le point d'être atteint par un autre, il doit de sa poupe montrer à ce dernier un feu blanc ou un feu à éclat.

Le feu blanc que le présent article exige de montrer peut être fixé et porté dans un fanal, mais dans ce cas, le fanal sera construit, agencé et muni d'écrans de façon à projeter une lumière non interrompue sur un arc horizontal de 12 quarts du compas, savoir : pour 6 quartz depuis droit de l'arrière de chaque côté du vaisseau, et d'une portée telle qu'il puisse être visible à une distance d'au moins un mille. Ce feu sera porté autant que possible sur le même niveau que les feux de côté.

Art. 11 (*a*). Un navire de moins de 150 pieds de longueur, lorsqu'il est à l'ancre, portera à l'avant, à l'endroit le plus en vue, mais à une hauteur n'excédant pas 20 pieds au-dessus de la coque, un feu blanc dans un fanal construit de façon à projeter une lumière claire, uniforme et non interrompue visible de tous les points de l'horizon à une distance d'au moins 1 mile.

(*b*) Un navire de 150 pieds ou plus de longueur, lorsqu'il est à l'ancre, portera à l'avant, à une hauteur d'au moins 20 et ne dépassant pas 40 pieds au-dessus de la coque, un semblable feu ; et à la poupe ou près de la poupe, et à une hauteur qui ne sera pas moins que 15 pieds plus bas que le feu d'avant, un autre feu semblable.

La longueur du navire sera censée être celle indiquée sur son certificat d'enregistrement.

(*c*) Un navire échoué dans ou près d'une passe, portera le feu ou les feux ci-dessus, et les deux feux rouges prescrits par l'article 4 (*a*).

(*d*) Les bateaux de marchés, barges, bateaux-pêcheurs, radeaux et autres embarcations, naviguant dans une baie, havre ou rivière, à bras, à cheval-vapeur, à la voile ou par le courant, ou qui seront mouillés ou ancrés dans ou près du chenal ou passage de toute baie, havre ou rivière, et pour lesquels il n'est pas autrement pourvu, porteront un feu brillant blanc à l'avant à 6 pieds au moins au-dessus du pont.

Les radeaux porteront dans chaque cas hissé à un poteau d'au moins 6 pieds de hauteur, un feu brillant blanc visible tout autour de l'horizon comme suit :— Les radeaux d'un coupon de largeur et 2 coupons ou plus de longueur, porteront un tel feu. Les radeaux de trois coupons ou plus de longueur, un tel feu à chaque bout du radeau. Les radeaux de plus d'un coupon de largeur porteront un tel feu à chaque coin, faisant 4 feux en tout.

Les radeaux en poches ou estacades flottants ou ancrés dans le passage d'une baie, havre ou rivière, porteront un feu brillant blanc à 6 pieds de hauteur au moins, à chaque bout du radeau, et un pareil feu de chaque côté au milieu entre l'avant et l'arrière. Tous les bacs à deux bouts porteront un alignement central de feux brillants blancs éclairant tout autour de l'horizon, placés à hauteurs égales en avant et en arrière, ils porteront aussi les feux prescrits dans l'article 2, clauses (*b*) et (*c*).

Art. 12. Chaque navire peut, si c'est nécessaire, pour attirer l'attention, en sus des feux que les présents règlements l'obligent de porter, montrer un feu à éclat, ou employer tout signal résonnant qui ne peut être pris erronément pour un signal de détresse.

Art. 13. Rien de contenu dans les présents règlements n'interviendra dans l'opération de toutes règles spéciales établies par le gouvernement d'une nation quelconque au sujet de feux supplémentaires de station et de signal pour deux navires de guerre ou plus, ou pour des vaisseaux à voiles naviguant de conserve, ou dans les signaux particuliers adoptés par les propriétaires de navires et qui sont autorisés par leurs gouvernements respectifs et dûment enregistrés et publiés.

Art. 14. Un navire à vapeur marchant à la voile seulement mais ayant sa cheminée debout, portera à l'avant, pendant le jour, à l'endroit le plus en vue, une boule ou forme noire de 2 pieds de diamètre.

SIGNAUX RÉSONNANTS PENDANT LA BRUME, ETC.

Art. 15. Tous les signaux prescrits par le présent article pour les navires en marche, seront donnés—

1. Par les "navires à vapeur," par le sifflet ou la sirène.

2. Par les "navires à voiles et les navires remorqués," par le cor de brume.

Les mots "coup prolongé" employés dans le présent article signifient un coup de 4 à 6 secondes.

Un navire à vapeur doit être pourvu d'un sifflet ou sirène, actionné par la vapeur ou quelque substitut à la vapeur, placé de manière à ce que le son ne puisse être intercepté par aucune obstruction, et d'un cor de brume actionné par un appareil mécanique, et aussi d'une forte cloche. Un navire à voiles d'un tonnage brut de 20 tonneaux ou plus doit être aussi muni d'un cor de brume et d'une cloche. En temps de brume, de brouillard, de neige ou de grosses pluies, soit de jour soit de nuit, les navires feront usage des signaux décrits dans le présent article, comme suit, savoir :—

(*a*) Un navire à vapeur en marche, sauf seulement un vapeur avec radeau en remorque, donnera, à des intervalles de pas plus d'une minute, 3 coups distincts de son sifflet.

(*b*) Chaque navire à la remorque d'un autre navire, sonnera à des intervalles d'une minute, 4 coups sur une bonne cloche bien placée, comme suit :—En sonnant la cloche deux fois rapidement suivi d'un intervalle un peu plus long, et sonnant encore deux fois rapidement (comme 4 coups de cloche pour indiquer l'heure).

(*c*) Un navire à vapeur qui remorque un radeau ou une toue d'estacades sonnera, à des intervalles d'au plus une minute, un sifflet aigu ou modéré durant 3 ou 5 secondes. Seuls les vapeurs avec un radeau ou des estacades à la remorque sonneront ce sifflet aigu dans les temps brumeux.

(*d*) Un navire à voiles en marche donnera au moyen de son cornet, à des intervalles de pas plus d'une minute, s'il est amuré sur tribord, un coup, s'il est amuré sur bâbord, deux coups de suite, et s'il est vent en arrière, trois coups de suite ;

(*e*) Un navire à l'ancre, à des intervalles de pas plus d'une minute, sonnera rapidement la cloche pendant à peu près cinq secondes.

Les navires à voiles et les bateaux jaugeant moins que 20 tonneaux de tonnage brut, ne seront pas obligés de donner les signaux ci-dessus mentionnés, mais s'ils ne le font pas, ils donneront quelque autre signal résonnant à des intervalles de pas plus d'une minute.

EN TEMPS DE BRUME LA VITESSE DES NAVIRES SERA MODÉRÉE, ETC.

Art. 16. Tout navire doit, en temps de brume, de brouillard ou de neige, ou de pluie, aller à une vitesse modérée, tenant compte des circonstances et conditions d'alors.

Un navire à vapeur qui entend, apparemment en avant de son travers, le signal de brume d'un vaisseau dont la position est incertaine, doit, selon les circonstances, arrêter ses machines, et ensuite naviguer avec prudence jusqu'à ce que tout danger d'abordage soit passé.

RÈGLES RELATIVES À LA ROUTE.

*Préliminaires—Risque d'abordage.*

On peut s'assurer les risques d'abordage, lorsque les circonstances le permettent, en guettant soigneusement l'orientation d'un navire qui approche. Si l'orientation ne change pas sensiblement, ce risque est censé exister.

Art. 17. Lorsque deux navires à voiles s'approchent l'un de l'autre de manière qu'il y ait risque d'abordage, l'un d'eux doit s'écarter du chemin de l'autre comme il suit, savoir :—

(*a*) Celui qui court largue doit s'écarter de la route de celui qui a le vent au plus près ;

(*b*) Celui qui est au plus près et a les amures à bâbord doit s'écarter de la route du navire au plus près dont les amures sont à tribord ;

(*c*) Si tous deux courent largue et ont le vent de côtés différents, celui qui a le vent à bâbord doit s'écarter de la route de l'autre ;

(*d*) Si tous deux courent largue et ont le vent du même bord, celui qui est au vent doit se tenir hors de la route de celui qui est sous le vent ;

(*e*) Celui qui est vent arrière doit s'écarter de la route de l'autre navire.

Art. 18. Si deux navires sous vapeur se rencontrent courant l'un vers l'autre, directement ou à peu près, et qu'il y ait risque d'abordage, tous deux doivent venir sur tribord pour passer à bâbord l'un de l'autre.

Cet article ne s'applique que dans les cas où les navires courent l'un vers l'autre, directement ou à peu près, et où il y a risque d'abordage, mais ne s'applique pas à deux navires qui doivent, en conservant chacun leur allure, s'éviter l'un l'autre ;

Les seuls cas auxquels il s'applique sont lorsque chacun des deux navires court vers l'autre, directement ou à peu près, ou, en d'autres termes, lorsque, de jour, chaque navire voit les mâts de l'autre en ligne droite, ou à peu près, avec les siens propres ; et, de nuit, lorsque chaque navire est dans une position telle qu'il peut voir les deux feux de côté de l'autre ;

Il ne s'applique pas lorsque, de jour, un navire en voit un autre croiser sa route en avant, ou, de nuit, lorsque le feu rouge d'un navire est opposé au feu rouge de l'autre, ou lorsque le feu vert de l'un est opposé au feu vert de l'autre, ou lorsque l'un d'eux voit en avant un feu rouge sans voir le feu vert, ou un feu vert sans voir le feu rouge, ni lorsque les deux feux verts et rouges sont visibles partout ailleurs qu'en avant.

Art. 19. Si deux navires sous vapeur font des routes qui se croisent et les exposent à s'aborder, celui qui voit l'autre par tribord doit manœuvrer de manière à ne pas gêner la route de ce dernier.

Art. 20. Si deux navires, l'un à voile, l'autre sous vapeur, font des routes qui les exposent à s'aborder, le navire sous vapeur doit manœuvrer de manière à ne pas gêner la route du navire à voiles.

Art. 21. Lorsque, d'après les règles qui précèdent, l'un des deux navires doit s'écarter de la route de l'autre, celui-ci poursuivra sa route sans ralentir sa vitesse.

NOTE.—Si, en raison de gros temps ou autres causes, ce navire se trouve tellement rapproché que l'abordage ne peut être évité par la seule action du navire qui cède la route, alors il agira de la meilleure manière possible pour éviter l'abordage.

(*Voir* articles 27 et 29.)

Art. 22. Tout navire qui, d'après les présents règlements, doit céder la route à un autre navire doit, si les circonstances le permettent, éviter de croiser la route de l'autre.

Art. 23. Tout navire à vapeur qui, d'après les présents règlements, doit céder la route à un autre navire, doit, en l'approchant, si c'est nécessaire, ralentir sa vitesse, ou stopper ou faire machine en arrière.

Art. 24. Nonobstant tout ce que contenu aux présents règlements, chaque navire qui en atteint un autre, doit s'écarter de la route du navire atteint.

Chaque navire atteignant un autre navire d'une direction quelconque plus que deux quarts en arrière de son travers, *i.e.*, dans une position telle, relativement au navire atteint, que pendant la nuit le premier navire serait incapable de voir aucun des feux de côté du dernier navire, sera censé être un navire atteignant, et nul changement subséquent dans l'orientation entre les deux navires ne rendra un navire atteignant un navire croisant dans le sens des présents règlements, ni ne l'exemptera du devoir de s'écarter de la route du navire atteint, tant que le premier ne sera passé et libre.

Vu que pendant le jour le navire atteignant ne peut pas toujours savoir avec certitude s'il est en avant ou en arrière de cette direction d'après l'autre navire, il doit, dans le doute, présumer qu'il est un navire atteignant, et s'écarter de la route.

Art. 20 (*a*). Dans les passages ou chenaux étroits tout navire à vapeur doit, si la chose est sûre et praticable, se tenir du côté du passage ou du milieu du chenal qui se trouve à tribord de ce navire.

(*b*) Dans tous les chenaux étroits où il y a un courant, et dans les rivières Ste-Marie, Ste-Clair, Détroit, Niagara et Saint-Laurent, lorsque deux vapeurs se rencontrent, le vapeur descendant aura le droit de chemin, et, avant que les vaisseaux soient arrivés à un demi-mille l'un de l'autre, il donnera le signal nécessaire pour indiquer quel côté il va prendre.

Art. 26. Les bâtiments à voiles en marche s'écarteront de la route des vaisseaux ou bateaux à voiles pêchant avec des rets, ou des lignes, ou des lignes dormantes. Cette présente règle ne donnera pas à un vaisseau ou bateau engagé à pêcher, le droit d'obstruer un passage fréquenté par d'autres vaisseaux que des vaisseaux de pêche.

Art. 27. En se conformant aux règles qui précèdent et les interprétant, il faut tenir compte de tous les dangers de la navigation et d'abordage, et avoir égard à toutes les circonstances particulières qui peuvent rendre nécessaire une dérogation à ces règles, afin de parer à un péril immédiat.

### SIGNAUX PAR SONS POUR LES NAVIRES EN VUE L'UN DE L'AUTRE.

Art. 28. Les mots " coup bref " employés dans le présent article signifient un coup d'environ une seconde.

Lorsque des navires sont en vue les uns des autres, un navire à vapeur en marche, en prenant toute direction autorisée ou requise par les présents règlements indiquera cette direction au moyen des signaux suivants, sur son sifflet ou sirène, savoir :—

Un coup bref signifie : " Je me dirige à tribord ".

Deux coups brefs signifient : " Je me dirige à bâbord ".

Il est défendu aux vaisseaux qui s'approchent les uns des autres de directions opposées de se servir de ce que les pilotes désignent " Signaux croisés " répondant à un sifflet par deux, et répondant à deux sifflets par un.

Si le pilote d'un vaisseau à vapeur auquel un signal passant est sonné croit qu'il n'est pas sûr d'accepter et de consentir au dit signal, il ne sonnera pas de signal croisé ; mais dans ce cas, et dans chaque cas où le pilote d'un vapeur ne comprend pas la marche ou l'intention d'un vapeur approchant, que ces signaux soient mal donnés ou mal répondus, ou pour d'autres causes, le pilote de ce steamer qui reçoit ainsi le premier signal passant, ou le pilote ainsi en doute, sonnera plusieurs coups brefs et rapides du sifflet, pas moins que quatre ; et si les vaisseaux se sont rapprochés à la distance d'un demi-mille l'un de l'autre, ils ralentiront tous deux leur vitesse le plus possible, juste assez pour gouverner, et, si c'est nécessaire, ils arrêteront et feront machine en arrière.

(*c*) Chaque fois qu'un vapeur approche d'une courbe ou coude brusque dans le chenal où à cause de la hauteur des rives ou autre cause un vapeur approchant d'une direction opposée ne peut être vu d'une distance d'un demi-mille, le pilote de ce vapeur, aussitôt qu'il sera arrivé à un demi-mille de cette courbe ou coude, donnera un signal d'un coup prolongé du sifflet, lequel signal sera répondu par un sifflet donné par le pilote de tout vaisseau approchant qui sera à portée d'entendre. Si ce signal est ainsi répondu par un vapeur de l'autre côté de la courbe, alors les signaux ordinaires pour se rencontrer et passer seront immédiatement donnés et répondus, mais si le premier signal d'alarme de ce pilote n'est pas répondu, il doit considérer que le chenal est libre.

### NUL NAVIRE NE DOIT, SOUS AUCUN PRÉTEXTE, NÉGLIGER LES PRÉCAUTIONS NÉCESSAIRES.

Art. 29. Rien dans ces règles ne saurait affranchir un navire, quel qu'il soit, son propriétaire, son capitaine ou son équipage, des conséquences d'une omission de porter des feux ou signaux, d'un défaut de surveillance convenable, ou enfin d'une négligence quelconque des précautions commandées par la pratique ordinaire de la navigation ou par les circonstances particulières de la situation.

### RÉSERVE À L'ÉGARD DES RÈGLES POUR LES PORTS ET LA NAVIGATION INTÉRIEURE.

Art. 30. Rien dans ces règles n'entravera l'opération d'une règle spéciale, régulièrement établie par une autorité locale, au sujet de la navigation d'un port, d'un fleuve ou d'une rivière, ou d'eaux intérieures.

### SIGNAUX DE DÉTRESSE.

Art. 31. Lorsqu'un navire est en détresse et a besoin du secours d'autres navires, ou de la terre, les signaux

suivants seront employés et déployés par ce navire, soit ensemble soit séparément, savoir :—

Pendant le jour :—

1. Un canon ou autre signal explosif, tiré à des intervalles d'environ une minute ;
2. Le signal de détresse indiqué par N.C. dans le Code international de signaux ;
3. Le signal éloigné, composé d'un pavillon carré, ayant soit au haut ou en bas, une boule ou quelque chose ressemblant à une boule ;
4. Un son continu produit par un appareil de signal de brume ;

Pendant la nuit :—

1. Un canon ou autre signal explosif tiré à des intervalles d'environ une minute ;
2. Des flammes sur le navire (telles que produites par les barils de goudron, ou d'huile, etc.)
3. Des fusées ou obus, jetant des étoiles de toute couleur ou description tirées une à la fois, à de courts intervalles ;
4. Un son continu par un appareil de signal de brume.

TRAINS DE BOIS ET PORTS DE SOREL.

Art. 32. Les trains de bois en dérive ou à l'ancre dans les eaux du Canada doivent tenir les feux prescrits par l'article 11, clause (*d*). Tout train de bois qui suit la même route qu'un autre qui le précède doit naviguer de manière à se tenir à vingt verges de distance de l'autre, et tout bâtiment qui rencontre ou passe un train de bois doit manœuvrer de manière à ne pas gêner la route de ce train de bois.

Les trains de bois doivent naviguer et mouiller de manière à ne pas gêner inutilement la route des navires qui fréquentent les mêmes eaux.

HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 20e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 17 de février 1905, du ministre de l'Intérieur, soumettant que certains colons juifs eurent la permission, en juillet 1904, d'établir une colonie d'après le système de hameau, et le quart nord-ouest de la section 36, township 19, rang 1 à l'ouest du principal méridien, sur lequel ces colons construisirent leurs maisons, fut réservé pour les fins du hameau. Ce lopin de terre était le homestead d'un nommé Jacob Bender, le promoteur de l'affaire, et il fut décidé de canceller son inscription, et il lui fut permis de prendre un autre homestead ailleurs.

Le Ministre dit que les diverses parties intéressées, suivant le rapport de l'inspecteur des homesteads, s'entendirent pour acheter le ¼ N.-E. de la même section pour M. Bender en compensation du homestead qu'il avait cédé. Par un rapport du 27 d'août 1902 des commissaires des terrains marécageux cette terre est déclarée terrain marécageux, mais dans le temps il ne voulurent pas le transférer à cause d'une réserve qui y était attachée. Aujourd'hui rien n'empêche qu'il soit transféré à la province.

Le Ministre dit de plus que l'agent des terres fédérales à Winnipeg fait rapport que le commissaire des terres provinciales est prêt à prendre la terre comme terrain marécageux et de la vendre à M. Bender au prix de $2 l'acre, et que l'argent prélevé par la communauté pour M. Bender est entre les mains du département de l'immigration à Winnipeg.

A ces causes, le Ministre recommande que le quart nord-est de la section 36, township 19, rang 1 à l'ouest du principal méridien, soit attribué à Sa Majesté le Roi Edouard VII pour les fins de la province du Manitoba, en vertu des dispositions du quatrième article du chapitre 47 des Statuts revisés du Canada.

Le comité soumet ce qui précède à l'approbation.

JOHN J. McGEE,
46-4 Greffier du Conseil privé.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

LE Comité, sur la recommandation du ministre du Revenu de l'Intérieur, conseille que le permis accordé à Mr. Archibald J. Campbell, pour le privilège d'exploiter le passage d'eau sur la rivière Ottawa entre Ross' Point, Québec, et un point immédiatement vis-à-vis dans le township de McNab, dans le comté de Renfrew, lequel passage a nom "Bristol Ferry," et accordé pour cinq ans à compter du 1er jour de mai 1902, soit cancellé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mercredi, le 26e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

ATTENDU que par le paragraphe (*b*) de la sous-clause 3 du premier article de l'Acte modifiant l'Acte concernant l'inspection des bateaux à vapeur, 3 Edouard VII, chapitre 66 (1903), il est statué que "lorsqu'il est prouvé d'une façon satisfaisante qu'un pays autre que le Canada a des lois d'inspection pour les bateaux à vapeur analogues à la loi d'inspection du Canada, le Gouverneur en conseil peut décréter que les bateaux à vapeur de tel pays qui sont porteurs d'actes d'inspection de la part des autorités qu'il appartient dans tel pays, lesquels actes d'inspection ne sont pas expirés, ne seront assujétis à l'inspection que dans la mesure nécessaire pour convaincre les inspecteurs canadiens que l'état du bateau à vapeur, ses chaudières, ses machines et ses appareils de sauvetage sont conformes aux énoncés de l'acte d'inspection en cours ; mais nul tel acte d'inspection ne sera accepté comme valide au Canada qui ne sera pour un bateau à vapeur d'un pays dont les lois accordent aux bateaux à vapeur canadiens qui naviguent entre le Canada et ce pays le même privilège qui est par le présent accordé aux bateaux à vapeur du dit pays."

Et attendu que le ministre de la Marine et des Pêcheries a reçu l'assurance que les certificats d'inspection non expirés portés par des bateaux à vapeur canadiens naviguant entre des ports des Etats-Unis et ce pays seront acceptés sans autre inspection que celle nécessaire pour satisfaire les inspecteurs des Etats-Unis que l'état du bateau à vapeur, de ses chaudières et machines et appareils de sauvetage est tel que mentionné dans le certificat d'inspection canadien en cours,—

A ces causes, il plaît au Gouverneur général en conseil d'ordonner que les certificats non expirés délivrés par les autorités légales des Etats-Unis seront acceptés en Canada comme preuve de l'inspection légale d'un

bateau à vapeur des Etats-Unis et le Canada, et que nulle autre inspection ne sera exigée autre que l'inspection nécessaire pour convaincre les inspecteurs canadiens que l'état des chaudières, machines et appareils de sauvetage des bateaux à vapeur est tel qu'énoncé dans le certificat d'inspection des Etats-Unis en cours.

JOHN J. McGEE,
46-3 Greffier du Conseil privé.

THE Governor General in Council, in virtue of the provisions of sections 22 and 245 of the Customs Act, is pleased to order that Grand'Mère and Shawenegan Falls, in the Province of Quebec, be made an Outport of Customs and Warehousing Port under the survey of the Port of Quebec.

[Ref. 19,250A.]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Thursday, the 20th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 17th February, 1905, from the Minister of the Interior, submitting that a number of Jewish settlers were allowed, in July, 1904, to establish a colony under the hamlet system and the north west quarter of Section 36, Township 19, Range 1, W.P.M., upon which these settlers built their houses, was reserved for the purposes of the hamlet. This parcel of land was the homestead of one Jacob Bender the chief mover in the matter and it was decided to cancel his entry and he was to be allowed to take up a homestead entry elsewhere.

The Minister states that the several parties interested, according to the report of the Homestead Inspector, agreed to buy the N. E. ¼ of the same section for Mr. Bender in lieu of his having given up his homestead. This land was reported by the Swamp Lands Commissioners as Swamp land by report, dated 27th August, 1902, but was at the time withheld from transfer because of a reservation against it. It is now clear for transfer to the Province.

The Minister further states that the Agent of Dominion Lands at Winnipeg reports that the Provincial Lands Commissioner is willing to take the land over as Swamp land and sell it to Mr. Bender at $2.00 per acre and that the money provided by the community for the purpose for Mr. Bender is in the hands of the Immigration Department at Winnipeg.

The Minister, therefore, recommends that the North East quarter of Section 36, Township 19, range 1, W. P. M. be vested in His Majesty King Edward VII for the purposes of the Province of Manitoba, under the provisions of the fourth section of chapter 47 of the Revised Statutes of Canada.

The Committee submit the same for approval.

JOHN J. McGEE,
46-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA

Thursday, the 20th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS it is deemed advisable to modify the Canadian regulations for preventing collisions on the Great Lakes so as to bring them into uniformity with the rules of the United States for the navigation of the same waters,—

Therefore the Governor General in Council, in pursuance of the provisions of chapter 79 of the Revised Statutes of Canada, intituled : "An Act respecting the navigation of Canadian waters", as amended by the Act 4 Edward VII, chapter 26, is pleased to order that, in so far as the waters of Lakes Superior, Huron, including Georgian Bay, Erie and Ontario, their connecting and tributary waters, and the St. Lawrence River as far east as the lower exit of the Lachine Canal and the Victoria Bridge at Montreal are concerned, the International Regulations for preventing collisions, which have heretofore been adopted by Canada as the Rules of the Road for navigating the Great Lakes, shall be and the same are hereby cancelled.

The Governor General in Council is further pleased to order that the attached Regulations shall be and they are hereby adopted as the Regulations for preventing collisions on navigable waters for the said waters of Lake Superior, Huron, including Georgian Bay, Erie and Ontario, their connecting and tributary waters and the St. Lawrence River as far east as the lower exit of the Lachine Canal and the Victoria Bridge at Montreal, and that the same Regulations come into force on the first day of April, 1905.

And the Governor General in Council is further pleased to order that for all other Canadian waters the

heretofore existing Regulations shall remain in force and are hereby confirmed as the Regulations for preventing collisions on navigable waters.

JOHN J. McGEE,
Clerk of the Privy Council.

—

RULES for navigating the Great Lakes, including Georgian Bay, their connecting and tributary waters and the St. Lawrence River as far East as the lower exit of the Lachine Canal and the Victoria bridge at Montreal.

PRELIMINARY.

In the following rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel; and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The word "steam vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these Rules, when she is not at anchor, or made fast to the shore or aground.

RULES CONCERNING LIGHTS, &C.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

Article 1. The rules concerning lights shall be complied with in all weathers from sunset to sunrise, and during such time no other lights, which may be mistaken for the prescribed lights, shall be exhibited.

Article 2. A steam vessel when under way shall carry :—

(*a.*) On or in front of the foremast, or if a vessel without a foremast, then in the forepart of the vessel, at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light, so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from right ahead to 2 points abaft the beam on either side, and of such a character as to be visible a distance of at least 5 miles.

(*b.*) On the starboard side a green light, so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

(*c.*) On the port side, a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side, and of such a character as to be visible at a distance of at least 2 miles.

(*d.*) The said green and red side-lights shall be fitted with in-board screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

(*e.*) A steam vessel when under way shall carry an additional white light similar in construction to the light mentioned in subdivision (*a*). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

Article 3. (*a.*) A steam vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in article 2 (*a*), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam vessel shall carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

(*b.*) A steam vessel having a raft in tow shall, instead of the forward lights mentioned in clause (*a*) of this rule, carry on or in front of the foremast, or if a vessel without a foremast, than in the forepart of the vessel, at a height above the hull of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height not less than the breadth, but such height need not exceed 40 feet, 2 bright white lights in a horizontal line athwart ships and not less than 8 feet apart, each so fixed as to throw a light all around the horizon and of such a character as to be visible at a distance of at least 5 miles; such steamer shall also carry the small white steering light described in clause (*a*).

Article 4 (*a*). A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in article 2 (*a*), where they can best be seen, and if a steam vessel, in lieu of that light, 2 red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all around the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, 2 black balls or shapes each 2 feet in diameter.

(*b.*) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in article 2 (*a*), and if a steam vessel, in lieu of that light, 3 lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all around the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(*c.*) The vessel referred to in this article when not making way through the water, shall not carry the side-lights, but when making way shall carry them.

(*d.*) The lights and shapes required to be shown by this article are to be taken by other vessels as signals that the vessel showing them is not under command, and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in article 31.

Article 5. A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by article 2 for a steam vessel under way, with the exception of the white lights mentioned therein, which they shall never carry.

Article 6. Whenever, as in the case of small vessels under way during bad weather, the green and red side-lights, cannot be fixed, these lights shall be kept at hand lighted and ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7. Steam vessels of less than 40, and vessels under oars or sails of less than 20 tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in article

2 (*a*) (*b*) and (*c*), but if they do not carry them they shall be provided with the following lights :—

1. Steam vessels of less than 40 tons shall carry,—

(*a.*) In the forepart of the vessel, or on or in front of the funnel, where it can best be seen, and at a height above the gunwale of not less than 9 feet, a bright white light constructed and fixed as prescribed in article 2 (*a*), and of such a character as to be visible at a distance of at least 2 miles.

(*b.*) Green and red side-lights constructed and fixed as prescribed in article 2 (*b*) and (*c*), and of such a character as to be visible at a distance of at least 1 mile, or a combined lantern showing a green light and a red light from right ahead to 2 points abaft the beam on their respective sides. Such lantern shall be carried not less than 3 feet below the white light.

2. Small steamboats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision 1 (*b*).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which, on the approach of or to the other vessels, shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars or sails, shall have ready at hand a lantern showing a white light which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this article shall not be obliged to carry the lights prescribed by article 4 (*a*) and article 11 (*c*).

Article 8. Pilot vessels, when engaged on their station on pilotage duty shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all around the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed 15 minutes. On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board, may show the white light instead of carrying it at the masthead, and may, instead of the coloured lights above mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other to be used as prescribed above.

Pilot vessels when not engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their tonnage.

Article 9. Fishing boats shall show such lights as are prescribed for vessels of their tonnage, and shall be under such further regulations as may be adopted for their protection.

Article 10. A vessel which is being overtaken by another shall show from her stern to such last mentioned vessel a white light or a flare-up light.

The white light required to be shown by this article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, so as to be visible at a distance of at least one mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

Article 11 (*a.*) A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform, and unbroken light visible all around the horizon, at a distance of at least 1 mile.

(*b.*) A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20 and not exceeding 40 feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of a vessel shall be deemed to be the length appearing on her certificate of registry.

(*c.*) A vessel aground in or near a fairway shall carry the above light or lights and the 2 red lights prescribed by article 4 (*a.*)

(*d.*) Produce boats, canal boats, fishing boats, rafts and other water craft, navigating any bay, harbour or river, by hand power, horse power, by sail or current or which shall be moored or anchored in or near the channel or fairway of any bay, harbour or river, and not otherwise provided for, shall carry one bright white light forward not less than 6 feet above the deck.

Rafts shall carry in each case on a pole not less than 6 feet high, a bright white light visible all around the horizon as follows :—Rafts of 1 crib in width and not more than 2 in length shall carry 1 such light. Rafts of 3 or more cribs in length, 1 such light on each end of the raft. Rafts of more than 1 crib abreast shall carry 1 such light on each outside corner, making 4 lights in all.

Bag or Boom rafts navigating or anchored in the fairway of any bay, harbour or river, shall carry a bright white light at least 6 feet high at each end of the raft, and 1 such light on each side midway between the forward and after end. All double ended ferryboats shall carry a central range of bright white lights showing all around the horizon, placed at equal heights forwards and aft, and shall also carry the lights specified in article 2, clauses (*b*) and (*c*).

Article 12. Every vessel may, if necessary, in order to attract attention, in addition to the lights which she is by these rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

Article 13. Nothing in these rules shall interfere with the operation of any special rules made by the government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship owners, which have been authorized by their respective governments and duly registered and published.

Article 14. A steam vessel proceeding under sail only, but having her funnel up, shall carry in daytime, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell. A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell. In fog, mist, falling snow, or heavy rain storms, whether by day or night, the signals described in this article shall be used as follows, viz :—

(*d.*) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack, 1 blast, when on the port tack 2 blasts in succession, and when with the wind abaft the beam, 3 blasts in succession.

(*e.*) A vessel when at anchor shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.

Sailing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the above mentioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.

SPEED OF SHIPS TO BE MODERATE IN FOG, &C.

Article 16. Every vessel shall, in a fog, mist, falling snow, or heavy rain-storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel hearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.

*Preliminary—Risk of Collision.*

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

Article 17. When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz. :—

(*a.*) A vessel which is running free shall keep out of the way of a vessel which is close hauled.

(*b.*) A vessel which is close hauled on the port tack shall keep out of the way of a vessel which is close hauled on the starboard tack.

(*c.*) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(*d.*) When both are running free, with the wind on the same side, the vessel which is to the windward shall keep out of the way of the vessel which is to leeward.

(*e.*) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18. When two steam vessels are meeting end on or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other ; in other words, to cases, in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own ; and, by night, to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course ; or by night, to cases were the red light of one vessel is opposed to the red light of the other or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light or a green light without a red light, is seen ahead, or where both green and red lights are seen any where but ahead.

Article 19. When two steam vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

Article 20. When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

Article 21. Where by any of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

NOTE.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert the collision.

(See articles 27 and 29.)

Article 22. Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23. Every steam vessel which is directed by these Rules to keep out of the way of another vessel shall, on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24. Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, *i.e.*, in such a position, in reference to the vessel which she is overtaking, that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel, and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward of or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25 (*a.*) In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

(*b.*) In all narrow channels where there is a current, and in the rivers St. Mary, St. Clair, Detroit, Niagara and St. Lawrence, when two steamers are meeting, the descending steamer shall have the right of way, and shall, before the vessels shall have arrived within the distance of half a mile of each other give the signal necessary to indicate which side she elects to take.

Article 26. Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This Rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

Article 27. In obeying and construing these Rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

SOUND SIGNALS FOR VESSELS IN SIGHT OF ONE ANOTHER.

Article 28. The word "short blast" used in this article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorized or required by these Rules, shall indicate that course by the following signals on her whistle or siren, viz.:

(*a.*) One short blast to mean : "I am directing my course to starboard."

(*b.*) Two short blasts to mean : "I am directing my course to port."

Vessels approaching each other from opposite directions are forbidden to use what has become known among pilots as "Cross signals" answering one whistle with two and answering two whistles with one.

If the pilot of a steam vessel to which a passing signal is sounded deems it unsafe to accept and assent

to said signal, he shall not sound a cross signal ; but in that case, and in every case where the pilot of one steamer fails to understand the course or intention of an approaching steamer, whether from signals being given or answered erroneously, or from other causes, the pilot of such steamer so receiving the first passing signal, or the pilot so in doubt, shall sound several short and rapid blasts of the whistle, not less than four ; and if the vessels shall have approached within half a mile of each other both shall reduce their speed to bare steerage way, and, if necessary, stop and reverse.

(c.) Whenever a steamer is nearing a short bend or curve in the channel where from the height of the banks or other cause a steamer approaching from the opposite direction cannot be seen for a distance of half a mile, the pilot of such steamer, when he shall have arrived within half a mile of such bend or curve, shall give a signal by one long blast of the whistle, which signal shall be answered by a similar blast given by the pilot of any approaching vessel that may be within hearing. Should such signal be so answered by a steamer on the further side of the bend, then the usual signals for meeting and passing shall immediately be given and answered, but if the first alarm signal of such pilot be not answered, he is to consider the channel clear.

NO VESSEL UNDER ANY CIRCUMSTANCES TO NEGLECT PROPER PRECAUTIONS.

Article 29. Nothing in these rules shall exonerate any vessel or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

RESERVATION OF RULES FOR HARBOURS AND INLAND NAVIGATION.

Article 30. Nothing in these Rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

DISTRESS SIGNALS.

Article 31. When a vessel is in distress and requires assistance from other vessels or from the shore, the following shall be the signals to be used or displayed by her, either together or separately, viz :—

In the day time :—

1. A gun or other explosive signal fired at intervals of about a minute ;
2. The International Code signal of distress indicated by N.C.;
3. The distant signal, consisting of a square flag, having either above or below it a ball or anything resembling a ball ;
4. A continuous sounding with any fog-signal apparatus.

At night :—

1. A gun or other explosive signal fired at intervals of about a minute ;
2. Flames on the vessel (as from a burning tar-barrel, oil-barrel, &c.) ;
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals ;
4. A continuous sounding with any fog-signal apparatus.

Article 32. Rafts, while drifting or at anchor shall be governed as regards lights to be carried by article 11, clause (*d*). Whenever any raft is going in the same direction as another which is ahead, the one shall be so navigated as not to come within twenty yards of the other, and every vessel meeting or overtaking a raft shall keep out of the way thereof.

Rafts shall be so navigated and anchored as not to cause any unnecessary impediment or obstruction to vessels navigating the same waters.

Thursday, the 20th day of April, 1905.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 4th March, 1905, from the Acting Minister of the Interior stating that the Honourable Hewitt Bostock was permitted to purchase at the rate of $2.00 per acre under the authority of an Order in Council dated 10th March, 1904, the following lands in Township 19, Range 14, west 6th meridian, in the Forty Mile Railway Belt in the Province of British Columbia, containing a total area of 868 acres, namely :

| | |
|---|---|

| S. W. ¼ of Section 28..... | 160 " |
| W. ½ of Section 27..... | 317 " |
| W. ½ of S. E. ¼ of Section 27..... | 80 " |
| | 868 acres. |

The Minister further states that it was subsequently represented, however, that a portion of the lands in question had been squatted upon, and it has now been ascertained that the S. W. ¼ and the W. ½ of the S. E. ¼ of Section 27, are required for homesteading purposes.

The Minister further states that Mr. Bostock has signified his willingness to relinquish the lands so required, namely :—the S. W. ¼ and the W. ½ of the S. E. ¼, Section 27, provided he is permitted to purchase in lieu thereof the N. ½ of Section 21, in the same township, containing 318 acres, which is available for that purpose and which is included in his grazing lease.

The Minister therefore recommends that the N. ½ of Section 21, Township 19, Range 14, west Sixth Meridian, be substituted for the S. W. ¼ and the W. ½ of the S. E. ¼ of Section 27, in the same Township, and that Mr. Bostock be permitted to purchase this half section at the same rate as that at which he was permitted to purchase the other lands specified in the Order in Council of the 10th March, 1904, above referred to.

The Committee submit the same for approval.

J'ai l'honneur d'être,
Monsieur,
Votre très obéissant serviteur,

ALFRED LYTTELTON.

A l'administrateur
du Gouvernement du Canada.

—

AU CHATEAU DE BUCKINGHAM,

Le 20e jour de mars 1905.

PRÉSENTS.

SA TRÈS EXCELLENTE MAJESTÉ LE ROI.

L'ARCHEVÊQUE DE CANTORBERY,
LE LORD PRÉSIDENT,
LORD SUFFIELD,
SIR WILLIAM WALROND.

ATTENDU que ce jour, a été lue devant le Conseil une représentation du Comité judiciaire du Conseil privé, datée le 16e jour de mars 1905, et dans les mots suivants :—

" Les Lords du Comité Judiciaire du Conseil privé ayant pris en considération la pratique par laquelle un appel à Sa Majesté en conseil ne peut, en l'absence d'un ordre spécial à cet égard rendu par Leurs Seigneuries, être inscrit pour audition *ex parte* contre un intimé à l'appel qui a fait défaut de souscrire une obligation de comparaître à l'appel dans le registre du Conseil privé, à moins que l'appelant n'ait préalablement obtenu de Leurs Seigneuries deux mandats successifs communément appelés " mandats de comparution " exigeant que le dit intimé souscrive une obligation de comparaître à l'appel dans les délais respectivement fixés par les dits mandats, et ait dûment publié les dits mandats en les affichant au Royal Exchange ou ailleurs de la manière ordinaire, et à moins que les dits délais ainsi fixés par les dits mandats comme susdit ne soient expirés. Et étant d'avis que la dite pratique est incommode et devrait en certains cas et sujette à certaines conditions être abolie,—Leurs Seigneuries ce jourd'hui s'accordent humblement à recommander à Votre Majesté de décréter comme suit, savoir :—

" 1. Que dans le cas où un intimé dans un appel à Sa Majesté en conseil dont le nom a été inscrit sur le rôle de l'appel par le tribunal qui admet l'appel, manque de souscrire une obligation de comparaître à l'appel dans le registre du Conseil privé, et qu'il appert d'après le double du rôle dans l'appel, ou d'après le certificat de l'officier du tribunal transmettant le double du rôle au registraire du Conseil privé que le dit intimé a reçu avis de l'ordre admettant l'appel à Votre Majesté en conseil, ou de l'ordre de Votre Majesté en conseil donnant à l'appelant une permission spéciale d'interjeter appel à Votre Majesté en conseil (selon le cas) et a aussi reçu avis de la dépêche du dit double du rôle au registraire du Conseil privé, l'appelant ne sera pas, sauf toute instruction de Leurs Seigneuries au contraire, tenu de lever des mandats de comparution demandant au dit intimé de souscrire une obligation de comparaître à l'appel, et l'appel, peut, sauf comme susdit, être inscrit pour audition *ex parte* contre le dit intimé en tout temps après l'expiration de trois mois de calendrier à compter de la date du dépôt de la pétition en appel de l'appelant, de la même manière que si les dits mandats de comparution avaient été levés par le dit appelant, et que les délais respectivement fixés pour que le intimé souscrive une obligation de comparaître étaient expirés.

" 2. Que dans le cas où un intimé dans un appel à Votre Majesté en conseil dont le nom a été inscrit sur le rôle de l'appel par un ordre de Votre Majesté en conseil, manque de souscrire une obligation de comparaître à l'appel dans le registre du Conseil privé, et qu'il appert d'après le double du rôle, ou d'après un rôle supplémentaire en appel, ou d'après un certificat de l'officier du tribunal transmettant le dit double du rôle ou rôle supplémentaire au régistraire du Conseil privé, que le dit intimé a été dûment notifié de toute demande à Votre Majesté en conseil de l'inscrire sur le rôle comme intimé dans l'appel, l'appelant ne sera pas, sauf toute instruction de Leurs Seigneuries au contraire, tenu de lever des mandats de comparution demandant à l'intimé de souscrire une obligation de comparaître en appel, et l'appel pourra, sauf comme susdit, être inscrit pour audition *ex parte* contre l'intimé en tout temps après l'expiration de trois mois de calendrier à compter de la date à laquelle le dit intimé a été signifié d'une copie de l'ordre de Votre Majesté en conseil l'inscrivant sur le rôle de l'appel de la même manière que si les dits mandats de comparution avaient été levés par l'appelant et que les délais respectivement fixés pour que le dit intimé souscrive une obligation de comparaître étaient expirés.

" 3. Que rien de contenu au présent ne sera censé affecter le pouvoir qu'ont Leurs Seigneuries d'ordonner à l'appelant dans un appel référé par Votre Majesté à Leurs Seigneuries de lever des mandats de comparution, ou de l'exempter de lever des mandats de comparution chaque fois que Leurs Seigneuries jugeront à propos de l'ordonner ainsi, et généralement de donner les instructions quant au temps auquel et les conditions dans lesquelles un appel ainsi référé comme suit sera inscrit, selon que Leurs Seigneuries le jugeront judicieux dans les circonstances.

" 4. Que le présent ordre s'appliquera à tous appels dans lesquels une pétition en appel sera déposée après la date du présent."

Sa Majesté, ayant pris la dite représentation en considération, par et avec l'avis de Son Conseil privé, a bien voulu l'approuver, ainsi que ce qu'elle recommande. Ce dont les intéressés sont requis de prendre avis, et de se conduire en conséquence.

47-3 W. A. FITZROY.

## ARRETÉS EN CONSEIL.

HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 20e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

ATTENDU qu'il est jugé à propos de modifier les règlements canadiens pour prévenir les abordages sur les grands lacs, de façon à les rendre conformes aux règlements des Etats-Unis pour la navigation des mêmes eaux,—

A ces causes il plaît au Gouverneur général en conseil, en vertu des dispositions du chapitre 79 des Statuts revisés du Canada, intitulé " Acte concernant la navigation dans les eaux canadiennes ", tel que modifié par l'acte 4 Edouard VII, chapitre 26, d'ordonner que, en tant qu'il s'agit des eaux des lacs Supérieur, Huron, y compris la Baie Georgienne, Erié et Ontario, de leurs eaux tributaires, et du fleuve Saint-Laurent aussi loin à l'est que la dernière sortie du canal Lachine et du pont Victoria à Montréal, les règlements internationaux pour prévenir les abordages qui ont été adoptés par le Canada comme les règles de la route pour naviguer sur les grands lacs, soient et ils sont par le présent cancellés.

Il plaît en outre au Gouverneur général en conseil d'ordonner que les règlements ci-joints soient et ils sont par le présent adoptés comme règlements pour prévenir les abordages dans les eaux navigables des lacs Supérieur, Huron, y compris la Baie Georgienne, Erié et Ontario, leurs eaux tributaires et le fleuve Saint-Laurent aussi loin à l'est que la dernière sortie

du canal Lachine et le pont Victoria à Montréal, et que les dits règlements deviennent exécutoires le premier jour d'avril 1905.

Et il plaît en outre au Gouverneur général en conseil d'ordonner que pour toutes les autres eaux canadiennes les règlements existants jusqu'à présent, resteront en vigueur et sont par le présent confirmés comme règlements pour prévenir les abordages dans les eaux navigables.

JOHN J. McGEE,
Greffier du Conseil privé.

RÈGLES—Pour la Navigation des Grands Lacs, y compris la Baie Georgienne, leurs eaux correspondantes et tributaires et le fleuve Saint-Laurent aussi loin à l'est que la dernière sortie du canal Lachine et le pont Victoria à Montréal.

DISPOSITION PRÉLIMINAIRE.

Dans les règles qui suivent tout navire à vapeur qui ne marche qu'à l'aide de ses voiles est considéré comme un navire à voiles ; et tout navire à vapeur dont la machine est en action est considéré comme navire à vapeur, qu'il se serve de ses voiles ou ne s'en serve pas.

L'expression "navire à vapeur" comprend tout navire mû par des machines.

Un navire est en "marche" dans le sens des présents règlements, lorsqu'il n'est pas à l'ancre, ou amarré au rivage, ou échoué.

RÈGLES CONCERNANT LES FEUX, ETC.

L'expression "visible" employée dans les présents règlements, au sujet des feux, signifie, visible par une nuit sombre, mais sans brume.

Art. 1. Les règlements concernant les feux seront suivis par tous les temps entre le coucher et le lever du soleil, et durant ce temps il ne sera exhibé aucun autre feu qui pourrait être pris par erreur pour un feu réglementaire.

Art. 2. Un navire à vapeur, lorsqu'il est en marche, portera les feux suivants :

(*a*) Sur ou en avant du mât de misaine, ou si c'est un navire sans mât de misaine, alors à l'avant du navire, à une hauteur de pas moins de 20 pieds au-dessus de la coque, et si le navire a plus de 20 pieds de largeur, alors à une hauteur au-dessus de la coque au moins égale à cette largeur, de façon toutefois qu'il ne soit pas besoin de porter le feu à plus de 40 pieds au-dessus de la coque, un feu brillant blanc placé de manière à fournir un rayonnement uniforme et non interrompu dans tout le parcours d'un arc horizontal de 20 quarts du compas,—établi de façon à projeter la lumière de 10 quarts de chaque côté du navire, c'est-à-dire, depuis l'avant jusqu'à 2 quarts en arrière du travers de chaque bord, et d'une portée telle qu'il puisse être visible à 5 milles au moins de distance ;

(*b*) A tribord, un feu vert, établi de façon à projeter une lumière uniforme et non interrompue sur un arc horizontal de 10 quarts du compas, placé de manière à projeter la lumière depuis l'avant jusqu'à deux quarts sur l'arrière du travers à tribord, et d'une portée telle qu'il puisse être visible à deux milles au moins de distance ;

(*c*) A bâbord, un feu rouge établi de façon à projeter une lumière uniforme et non interrompue sur un arc horizontal de 10 quarts du compas,—placé de manière à projeter la lumière depuis l'avant jusqu'à 2 points sur l'arrière du travers à bâbord, et d'une portée telle qu'il puisse être visible à 2 milles au moins de distance ;

(*d*) Ces feux de côté vert et rouge doivent être munis, en dedans du bord, d'écrans dirigés de l'arrière à l'avant et s'étendant à 3 pieds au moins en avant de la lumière, afin que le feu vert ne puisse pas être aperçu de bâbord avant, et le feu rouge de tribord avant ;

(*e*) Un navire à vapeur lorsqu'il est en marche peut porter un feu blanc supplémentaire semblable dans la forme au feu mentionné dans la subdivision (*a*). Ces deux feux seront placés en ligne avec la quille de façon qu'un feu sera au moins 15 pieds plus haut que l'autre, et dans une position telle relativement l'un à l'autre que le feu d'en bas soit en avant de celui d'en haut. La distance verticale entre ces deux feux sera moindre que la distance horizontale.

Art. 3. (*a*) Un navire à vapeur, lorsqu'il remorque un autre navire, doit, indépendamment de ses feux de côté, porter deux feux brillants blancs placés verticalement l'un au-dessus de l'autre, à pas moins de 6 pieds de distance, et lorsqu'il remorque plus d'un navire il portera un feu blanc brillant supplémentaire placé à 6 pieds au-dessus ou au-dessous des dits feux, si la longueur de la remorque mesurée depuis l'arrière du remorqueur jusqu'à l'arrière du dernier navire remorqué excède 600 pieds. Chacun de ces feux doit être de la même construction et de la même portée et placé dans la même position que le feu blanc mentionné à l'article 2 (*a*), sauf le feu supplémentaire qui peut être porté à une hauteur d'au moins 14 pieds au-dessus de la coque.

Ce navire à vapeur peut porter un petit feu blanc en arrière de la cheminée ou de l'arrière-mât pour servir de guide au navire remorqué, mais ce feu ne doit pas être visible en avant du bau.

(*b*) Un navire à vapeur lorsqu'il remorque un radeau de bois, doit, au lieu des feux d'avant mentionnés à la clause (*a*) de la présente règle, porter sur ou en avant du mât de misaine, ou si c'est un navire sans mât de misaine, alors à l'avant du navire, à une hauteur de pas moins de 20 pieds au-dessus de la coque, et si le navire a plus de 20 pieds de largeur, alors à une hauteur au-dessus de la coque au moins égale à cette largeur, de façon toutefois qu'il ne soit pas besoin de porter le feu à plus de 40 pieds au-dessus de la coque, 2 feux brillants blancs en une ligne horizontale en travers du navire espacés d'au moins 8 pieds, établis de façon à projeter une lumière tout autour de l'horizon, et d'une telle portée qu'elle puisse être visible à 5 milles de distance au moins ; ce navire portera aussi la petite lumière blanche pour servir de guide à la remorque, décrite à la clause (*a*).

Art. 4. (*a*) Un navire qui, à raison de quelque accident, n'obéit pas à la manœuvre, portera à la même hauteur que le feu blanc mentionné à l'article 2 (*a*), à l'endroit le plus visible, et, si c'est un navire à vapeur, au lieu de ce feu, deux feux rouges placés verticalement l'un au-dessus de l'autre à pas moins de 6 pieds de distance, et d'une nature à pouvoir être visible tout autour de l'horizon à une distance d'au moins 2 milles ; et durant le jour il portera placé verticalement l'une au-dessus de l'autre à 6 pieds au moins de distance, là où elles seront le plus visibles, deux boules ou formes noires de deux pieds de diamètre chacune.

(*b*) Un navire employé à poser ou relever un câble télégraphique, portera, dans la même position que le feu blanc mentionné à l'article 2 (*a*), et si c'est un navire à vapeur, à la place de ce feu, trois feux placés verticalement l'un au-dessus de l'autre, à pas moins de 6 pieds de distance. Le plus haut et le plus bas de ces feux seront rouges, et celui du milieu sera blanc, et ils seront d'une nature telle à pouvoir être visibles tout autour de l'horizon, à une distance d'au moins deux milles. Le jour il portera sur une ligne verticale et l'une au-dessus de l'autre à pas moins de 6 pieds de distance, là où elles seront plus visibles, trois formes d'au moins 2 pieds de diamètre, dont la plus haute et la plus basse seront rondes et de couleur rouge, et celle du milieu en forme de losange et blanche.

(*c*) Le navire ci-dessus, lorsqu'il est stationnaire, ne portera pas de feux de côté, mais lorsqu'il sera en marche il devra les porter.

(*d*) Les feux et boules mentionnés au présent article seront regardés par les autres navires comme étant un signal que le navire qui les porte n'obéit plus à la manœuvre, et ne peut, par conséquent, s'écarter de leur route.

Ces signaux ne sont pas des signaux de navires en détresse et ayant besoin de secours. De tels signaux sont contenus à l'article 31.

Art 5. Un navire à voiles, en marche, et tout navire à la remorque, doit porter les mêmes feux que prescrits par l'article 2 pour les navires à vapeur en marche, à l'exception des feux blancs, dont il ne doit jamais faire usage.

Art. 6. Lorsqu'un bâtiment en marche est d'assez faibles dimensions pour que ces feux verts et rouges ne puissent pas être fixés d'une manière permanente,

par un mauvais temps, ces feux doivent néanmoins être tenus allumés sur le pont à leurs bords respectifs, et prêts à servir ; et ils seront montrés à tout navire dont il s'approchera ou qui s'en approchera, chacun de leur côté, assez à temps pour prévenir l'abordage, de manière qu'ils soient autant en vue que possible, et présentés de telle sorte que le feu vert ne puisse être aperçu du côté de bâbord, ni le feu rouge du côté de tribord, ni, si la chose est praticable, à plus de deux quarts en arrière du travers de leur bords respectifs.

Pour rendre ces prescriptions d'une application plus certaine et plus facile, les fanaux seront peints extérieurement de la couleur du feu qu'ils contiennent, et seront munis d'écrans convenables.

Art. 7. Les navires à vapeur de moins de 40 tonneaux, et les vaisseaux à rames ou à voiles de moins de 20 tonneaux de tonnage brut respectivement, et les chaloupes à rames, en marche, ne seront pas obligés de porter les feux mentionnés à l'article 2 (*a*) (*b*) et (*c*), mais s'ils ne les portent pas, ils seront munis des feux suivants :—

1. Les navires à vapeur jaugeant moins de 40 tonneaux porteront—

(*a.*) A l'avant du navire, ou sur ou en avant de la cheminée, à l'endroit où il sera le plus en vue, et à une hauteur au-dessus du plat-bord d'au moins 9 pieds, un feu brillant blanc construit et fixé tel que prescrit à l'article 2 (*a*), et de nature à être visible d'une distance d'au moins 2 milles.

(*b.*) Des feux de côté verts et rouges tel que prescrit à l'article 2 (*b*) et (*c*), et de nature à être visibles à une distance d'au moins 1 mille, ou un fanal combiné exhibant un feu vert et un feu rouge depuis l'avant jusqu'à deux quarts en arrière du travers de leurs bords respectifs. Ce fanal sera porté à au moins 3 pieds plus bas que le feu blanc.

2. Les petites chaloupes à vapeur que portent les navires de long cours pourront porter le feu blanc à une moindre hauteur que 9 pieds au-dessus du plat-bord, mais il sera porté au-dessus du fanal combiné mentionné au paragraphe 1 (*b*).

3. Les bâtiments à rames ou à voiles, jaugeant moins de 20 tonneaux tiendront toujours prêt un fanal ayant d'un côté un verre de couleur verte, et de l'autre côté un verre de couleur rouge, et à l'approche d'un autre bâtiment ce fanal sera montré en temps opportun pour prévenir l'abordage, en ayant soin que le feu vert ne puisse être aperçu de bâbord, ni le feu rouge de tribord.

4. Les chaloupes à rames, qu'elles marchent à la rame ou à la voile, tiendront toujours prêt un fanal montrant au feu blanc qui sera temporairement exhibé en temps suffisant pour prévenir l'abordage.

Les vaisseaux mentionnés dans le présent article ne seront pas obligés de porter les feux prescrits par l'article 4 (*a*) et l'article 11 (*c*).

Art. 8. Les bateaux-pilotes, lorsqu'ils sont occupés au service du pilotage dans leurs circonscriptions, ne porteront pas les mêmes feux que ceux exigés pour les autres bâtiments, mais ils porteront en tête du mât un feu blanc visible de tous les points de l'horizon, et montreront de plus un feu ou des feux à éclat à de courts intervalles qui ne devront pas être de plus de 15 minutes. A l'approche ou en approchant de tous navires, ils allumeront leurs feux de côté, prêts à servir, et les exhiberont à de courts intervalles, pour indiquer la direction dans laquelle ils marchent, mais le feu vert ne sera pas montré du côté de bâbord, ni le feu rouge du côté de tribord.

Un bateau-pilote d'une classe qui l'oblige de se rendre le long d'un navire pour mettre un pilote à bord, peut montrer le feu blanc au lieu de le porter en tête du mât, et peut, au lieu des feux de couleurs mentionnés ci-dessus, tenir toujours prêt à servir, un fanal ayant un verre vert d'un côté et un verre rouge de l'autre pour être employé tel que prescrit ci-dessus.

Les bateaux-pilotes qui ne seront pas occupés au service du pilotage dans leurs circonscriptions, porteront des feux semblables à ceux des autres navires de leur tonnage.

Art. 9. Les bateaux de pêche montreront les feux prescrits pour les vaisseaux de leur tonnage, et seront assujétis à tels autres règlements qui seront adoptés pour leur protection.

Art. 10. Lorsqu'un navire est sur le point d'être atteint par un autre, il doit de sa poupe montrer à ce dernier un feu blanc ou un feu à éclat.

Le feu blanc que le présent article exige de montrer peut être fixé et porté dans un fanal, mais dans ce cas, le fanal sera construit, agencé et muni d'écrans de façon à projeter une lumière non interrompue sur un arc horizontal de 12 quarts du compas, savoir : pour 6 quartz depuis droit de l'arrière de chaque côté du vaisseau, et d'une portée telle qu'il puisse être visible à une distance d'au moins un mille. Ce feu sera porté autant que possible sur le même niveau que les feux de côté.

Art. 11 (*a*). Un navire de moins de 150 pieds de longueur, lorsqu'il est à l'ancre, portera à l'avant, à l'endroit le plus en vue, mais à une hauteur n'excédant pas 20 pieds au-dessus de la coque, un feu blanc dans un fanal construit de façon à projeter une lumière claire, uniforme et non interrompue visible de tous les points de l'horizon à une distance d'au moins 1 mile.

(*b*) Un navire de 150 pieds ou plus de longueur, lorsqu'il est à l'ancre, portera à l'avant, à une hauteur d'au moins 20 et ne dépassant pas 40 pieds au-dessus de la coque, un semblable feu ; et à la poupe ou près de la poupe, et à une hauteur qui ne sera pas moins que 15 pieds plus bas que le feu d'avant, un autre feu semblable.

La longueur du navire sera censée être celle indiquée sur son certificat d'enregistrement.

(*c*) Un navire échoué dans ou près d'une passe, portera le feu ou les feux ci-dessus, et les deux feux rouges prescrits par l'article 4 (*a*).

(*d*) Les bateaux de marchés, barges, bateaux-pêcheurs, radeaux et autres embarcations, naviguant dans une baie, havre ou rivière, à bras, à cheval-vapeur, à la voile ou par le courant, ou qui seront mouillés ou ancrés dans ou près du chenal ou passage de toute baie, havre ou rivière, et pour lesquels il n'est pas autrement pourvu, porteront un feu brillant blanc à l'avant à 6 pieds au moins au-dessus du pont.

Les radeaux porteront dans chaque cas hissé à un poteau d'au moins 6 pieds de hauteur, un feu brillant blanc visible tout autour de l'horizon comme suit :— Les radeaux d'un coupon de largeur et 2 coupons ou plus de longueur, porteront un tel feu. Les radeaux de trois coupons ou plus de longueur, un tel feu à chaque bout du radeau. Les radeaux de plus d'un coupon de largeur porteront un tel feu à chaque coin, faisant 4 feux en tout.

Les radeaux en poches ou estacades flottants ou ancrés dans le passage d'une baie, havre ou rivière, porteront un feu brillant blanc à 6 pieds de hauteur au moins, à chaque bout du radeau, et un pareil feu de chaque côté au milieu entre l'avant et l'arrière. Tous les bacs à deux bouts porteront un alignement central de feux brillants blancs éclairant tout autour de l'horizon, placés à hauteurs égales en avant et en arrière, ils porteront aussi les feux prescrits dans l'article 2, clauses (*b*) et (*c*).

Art. 12. Chaque navire peut, si c'est nécessaire, pour attirer l'attention, en sus des feux que les présents règlements l'obligent de porter, montrer un feu à éclat, ou employer tout signal résonnant qui ne peut être pris erronément pour un signal de détresse.

Art. 13. Rien de contenu dans les présents règlements n'interviendra dans l'opération de toutes règles spéciales établies par le gouvernement d'une nation quelconque au sujet de feux supplémentaires de station et de signal pour deux navires de guerre ou plus, ou pour des vaisseaux à voiles naviguant de conserve, ou dans les signaux particuliers adoptés par les propriétaires de navires et qui sont autorisés par leurs gouvernements respectifs et dûment enregistrés et publiés.

Art. 14. Un navire à vapeur marchant à la voile seulement mais ayant sa cheminée debout, portera à l'avant, pendant le jour, à l'endroit le plus en vue, une boule ou forme noire de 2 pieds de diamètre.

SIGNAUX RÉSONNANTS PENDANT LA BRUME, ETC.

Art. 15. Tous les signaux prescrits par le présent article pour les navires en marche, seront donnés—

1. Par les "navires à vapeur," par le sifflet ou la sirène.

2. Par les "navires à voiles et les navires remorqués," par le cor de brume.

Les mots "coup prolongé" employés dans le présent article signifient un coup de 4 à 6 secondes.

Un navire à vapeur doit être pourvu d'un sifflet ou sirène, actionné par la vapeur ou quelque substitut à la vapeur, placé de manière à ce que le son ne puisse être intercepté par aucune obstruction, et d'un cor de brume actionné par un appareil mécanique, et aussi d'une forte cloche. Un navire à voiles d'un tonnage brut de 20 tonneaux ou plus doit être aussi muni d'un cor de brume et d'une cloche. En temps de brume, de brouillard, de neige ou de grosses pluies, soit de jour soit de nuit, les navires feront usage des signaux décrits dans le présent article, comme suit, savoir :—

(*a*) Un navire à vapeur en marche, sauf seulement un vapeur avec radeau en remorque, donnera, à des intervalles de pas plus d'une minute, 3 coups distincts de son sifflet.

(*b*) Chaque navire à la remorque d'un autre navire, sonnera à des intervalles d'une minute, 4 coups sur une bonne cloche bien placée, comme suit :—En sonnant la cloche deux fois rapidement suivi d'un intervalle un peu plus long, et sonnant encore deux fois rapidement (comme 4 coups de cloche pour indiquer l'heure).

(*c*) Un navire à vapeur qui remorque un radeau ou une toue d'estacades sonnera, à des intervalles d'au plus une minute, un sifflet aigu ou modéré durant 3 ou 5 secondes. Seuls les vapeurs avec un radeau ou des estacades à la remorque sonneront ce sifflet aigu dans les temps brumeux.

(*d*) Un navire à voiles en marche donnera au moyen de son cornet, à des intervalles de pas plus d'une minute, s'il est amuré sur tribord, un coup, s'il est amuré sur bâbord, deux coups de suite, et s'il est vent en arrière, trois coups de suite ;

(*e*) Un navire à l'ancre, à des intervalles de pas plus d'une minute, sonnera rapidement la cloche pendant à peu près cinq secondes.

Les navires à voiles et les bateaux jaugeant moins que 20 tonneaux de tonnage brut, ne seront pas obligés de donner les signaux ci-dessus mentionnés, mais s'ils ne le font pas, ils donneront quelque autre signal résonnant à des intervalles de pas plus d'une minute.

EN TEMPS DE BRUME LA VITESSE DES NAVIRES SERA MODÉRÉE, ETC.

Art. 16. Tout navire doit, en temps de brume, de brouillard ou de neige, ou de pluie, aller à une vitesse modérée, tenant compte des circonstances et conditions d'alors.

Un navire à vapeur qui entend, apparemment en avant de son travers, le signal de brume d'un vaisseau dont la position est incertaine, doit, selon les circonstances, arrêter ses machines, et ensuite naviguer avec prudence jusqu'à ce que tout danger d'abordage soit passé.

RÈGLES RELATIVES À LA ROUTE.

*Préliminaires--Risque d'abordage.*

On peut s'assurer les risques d'abordage, lorsque les circonstances le permettent, en guettant soigneusement l'orientation d'un navire qui approche. Si l'orientation ne change pas sensiblement, ce risque est censé exister.

Art. 17. Lorsque deux navires à voiles s'approchent l'un de l'autre de manière qu'il y ait risque d'abordage, l'un d'eux doit s'écarter du chemin de l'autre comme il suit, savoir :—

(*a*) Celui qui court largue doit s'écarter de la route de celui qui a le vent au plus près ;

(*b*) Celui qui est au plus près et a les amures à bâbord doit s'écarter de la route du navire au plus près dont les amures sont à tribord ;

(*c*) Si tous deux courent largue et ont le vent de côtés différents, celui qui a le vent à bâbord doit s'écarter de la route de l'autre ;

(*d*) Si tous deux courent largue et ont le vent du même bord, celui qui est au vent doit se tenir hors de la route de celui qui est sous le vent ;

(*e*) Celui qui est vent arrière doit s'écarter de la route de l'autre navire.

Art. 18. Si deux navires sous vapeur se rencontrent courant l'un vers l'autre, directement ou à peu près, et qu'il y ait risque d'abordage, tous deux doivent venir sur tribord pour passer à bâbord l'un de l'autre.

Cet article ne s'applique que dans les cas où les navires courent l'un vers l'autre, directement ou à peu près, et où il y a risque d'abordage, mais ne s'applique pas à deux navires qui doivent, en conservant chacun leur allure, s'éviter l'un l'autre ;

Les seuls cas auxquels il s'applique sont lorsque chacun des deux navires court vers l'autre, directement ou à peu près, ou, en d'autres termes, lorsque, de jour, chaque navire voit les mâts de l'autre en ligne droite, ou à peu près, avec les siens propres ; et, de nuit, lorsque chaque navire est dans une position telle qu'il peut voir les deux feux de côté de l'autre ;

Il ne s'applique pas lorsque, de jour, un navire en voit un autre croiser sa route en avant, ou, de nuit, lorsque le feu rouge d'un navire est opposé au feu rouge de l'autre, ou lorsque le feu vert de l'un est opposé au feu vert de l'autre, ou lorsque l'un d'eux voit en avant un feu rouge sans voir le feu vert, ou un feu vert sans voir le feu rouge, ni lorsque les deux feux verts et rouges sont visibles partout ailleurs qu'en avant.

Art. 19. Si deux navires sous vapeur font des routes qui se croisent et les exposent à s'aborder, celui qui voit l'autre par tribord doit manœuvrer de manière à ne pas gêner la route de ce dernier.

Art. 20. Si deux navires, l'un à voile, l'autre sous vapeur, font des routes qui les exposent à s'aborder, le navire sous vapeur doit manœuvrer de manière à ne pas gêner la route du navire à voiles.

Art. 21. Lorsque, d'après les règles qui précèdent, l'un des deux navires doit s'écarter de la route de l'autre, celui-ci poursuivra sa route sans ralentir sa vitesse.

NOTE.—Si, en raison de gros temps ou autres causes, ce navire se trouve tellement rapproché que l'abordage ne peut être évité par la seule action du navire qui cède la route, alors il agira de la meilleure manière possible pour éviter l'abordage.

(*Voir* articles 27 et 29.)

Art. 22. Tout navire qui, d'après les présents règlements, doit céder la route à un autre navire doit, si les circonstances le permettent, éviter de croiser la route de l'autre.

Art. 23. Tout navire à vapeur qui, d'après les présents règlements, doit céder la route à un autre navire, doit, en l'approchant, si c'est nécessaire, ralentir sa vitesse, ou stopper ou faire machine en arrière.

Art. 24. Nonobstant tout ce que contenu aux présents règlements, chaque navire qui en atteint un autre, doit s'écarter de la route du navire atteint.

Chaque navire atteignant un autre navire d'une direction quelconque plus que deux quarts en arrière de son travers, *i.e.*, dans une position telle, relativement au navire atteint, que pendant la nuit le premier navire serait incapable de voir aucun des feux de côté du dernier navire, sera censé être un navire atteignant, et nul changement subséquent dans l'orientation entre les deux navires ne rendra un navire atteignant un navire croisant dans le sens des présents règlements, ni ne l'exemptera du devoir de s'écarter de la route du navire atteint, tant que le premier ne sera passé et libre.

Vu que pendant le jour le navire atteignant ne peut pas toujours savoir avec certitude s'il est en avant ou en arrière de cette direction d'après l'autre navire, il doit, dans le doute, présumer qu'il est un navire atteignant, et s'écarter de la route.

Art. 20 (*a*). Dans les passages ou chenaux étroits tout navire à vapeur doit, si la chose est sûre et praticable, se tenir du côté du passage ou du milieu du chenal qui se trouve à tribord de ce navire.

(*b*) Dans tous les chenaux étroits où il y a un courant, et dans les rivières Ste-Marie, Ste-Clair, Détroit, Niagara et Saint-Laurent, lorsque deux vapeurs se rencontrent, le vapeur descendant aura le droit de chemin, et, avant que les vaisseaux soient arrivés à un demi-mille l'un de l'autre, il donnera le signal nécessaire pour indiquer quel côté il va prendre.

Art. 26. Les bâtiments à voiles en marche s'écarteront de la route des vaisseaux ou bateaux à voiles pêchant avec des rets, ou des lignes, ou des lignes dor-

mantes. Cette présente règle ne donnera pas à un vaisseau ou bateau engagé à pêcher, le droit d'obstruer un passage fréquenté par d'autres vaisseaux que des vaisseaux de pêche.

Art. 27. En se conformant aux règles qui précèdent et les interprétant, il faut tenir compte de tous les dangers de la navigation et d'abordage, et avoir égard à toutes les circonstances particulières qui peuvent rendre nécessaire une dérogation à ces règles, afin de parer à un péril immédiat.

SIGNAUX PAR SONS POUR LES NAVIRES EN VUE L'UN DE L'AUTRE.

Art. 28. Les mots " coup bref " employés dans le présent article signifient un coup d'environ une seconde.

Lorsque des navires sont en vue les uns des autres, un navire à vapeur en marche, en prenant toute direction autorisée ou requise par les présents règlements indiquera cette direction au moyen des signaux suivants, sur son sifflet ou sirène, savoir :—

Un coup bref signifie : " Je me dirige à tribord ".

Deux coups brefs signifient : " Je me dirige à bâbord ".

Il est défendu aux vaisseaux qui s'approchent les uns des autres de directions opposées de se servir de ce que les pilotes désignent " Signaux croisés " répondant à un sifflet par deux, et répondant à deux sifflets par un.

Si le pilote d'un vaisseau à vapeur auquel un signal passant est sonné croit qu'il n'est pas sûr d'accepter et de consentir au dit signal, il ne sonnera pas de signal croisé ; mais dans ce cas, et dans chaque cas où le pilote d'un vapeur ne comprend pas la marche ou l'intention d'un vapeur approchant, que ces signaux soient mal donnés ou mal répondus, ou pour d'autres causes, le pilote de ce steamer qui reçoit ainsi le premier signal passant, ou le pilote ainsi en doute, sonnera plusieurs coups brefs et rapides du sifflet, pas moins que quatre ; et si les vaisseaux se sont rapprochés à la distance d'un demi-mille l'un de l'autre, ils ralentiront tous deux leur vitesse le plus possible, juste assez pour gouverner, et, si c'est nécessaire, ils arrêteront et feront machine en arrière.

(*c*) Chaque fois qu'un vapeur approche d'une courbe ou coude brusque dans le chenal où à cause de la hauteur des rives ou autre cause un vapeur approchant d'une direction opposée ne peut être vu d'une distance d'un demi-mille, le pilote de ce vapeur, aussitôt qu'il sera arrivé à un demi-mille de cette courbe ou coude, donnera un signal d'un coup prolongé du sifflet, lequel signal sera répondu par un sifflet donné par le pilote de tout vaisseau approchant qui sera à portée d'entendre. Si ce signal est ainsi répondu par un vapeur de l'autre côté de la courbe, alors les signaux ordinaires pour se rencontrer et passer seront immédiatement donnés et répondus, mais si le premier signal d'alarme de ce pilote n'est pas répondu, il doit considérer que le chenal est libre.

NUL NAVIRE NE DOIT, SOUS AUCUN PRÉTEXTE, NÉGLIGER LES PRÉCAUTIONS NÉCESSAIRES.

Art. 29. Rien dans ces règles ne saurait affranchir un navire, quel qu'il soit, son propriétaire, son capitaine ou son équipage, des conséquences d'une omission de porter des feux ou signaux, d'un défaut de surveillance convenable, ou enfin d'une négligence quelconque des précautions commandées par la pratique ordinaire de la navigation ou par les circonstances particulières de la situation.

RÉSERVE À L'ÉGARD DES RÈGLES POUR LES PORTS ET LA NAVIGATION INTÉRIEURE.

Art. 30. Rien dans ces règles n'entravera l'opération d'une règle spéciale, régulièrement établie par une autorité locale, au sujet de la navigation d'un port, d'un fleuve ou d'une rivière, ou d'eaux intérieures.

SIGNAUX DE DÉTRESSE.

Art. 31. Lorsqu'un navire est en détresse et a besoin du secours d'autres navires, ou de la terre, les signaux suivants seront employés et déployés par ce navire, soit ensemble soit séparément, savoir :—

Pendant le jour :—

1. Un canon ou autre signal explosif, tiré à des intervalles d'environ une minute ;
2. Le signal de détresse indiqué par N.C. dans le Code international de signaux ;
3. Le signal éloigné, composé d'un pavillon carré, ayant soit au haut ou en bas, une boule ou quelque chose ressemblant à une boule ;
4. Un son continu produit par un appareil de signal de brume ;

Pendant la nuit :—

1. Un canon ou autre signal explosif tiré à des intervalles d'environ une minute ;
2. Des flammes sur le navire (telles que produites par les barils de goudron, ou d'huile, etc.)
3. Des fusées ou obus, jetant des étoiles de toute couleur ou description tirées une à la fois, à de courts intervalles ;
4. Un son continu par un appareil de signal de brume.

TRAINS DE BOIS ET PORTS DE SOREL.

Art. 32. Les trains de bois en dérive ou à l'ancre dans les eaux du Canada doivent tenir les feux prescrits par l'article 11, clause (*d*). Tout train de bois qui suit la même route qu'un autre qui le précède doit naviguer de manière à se tenir à vingt verges de distance de l'autre, et tout bâtiment qui rencontre ou passe un train de bois doit manœuvrer de manière à ne pas gêner la route de ce train de bois.

Les trains de bois doivent naviguer et mouiller de manière à ne pas gêner inutilement la route des navires qui fréquentent les mêmes eaux.

HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 20e jour d'avril 1905.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport daté le 17 de février 1905, du ministre de l'Intérieur, soumettant que certains colons juifs eurent la permission, en juillet 1904, d'établir une colonie d'après le système de hameau, et le quart nord-ouest de la section 36, township 19, rang 1 à l'ouest du principal méridien, sur lequel ces colons construisirent leurs maisons, fut réservé pour les fins du hameau. Ce lopin de terre était le homestead d'un nommé Jacob Bender, le promoteur de l'affaire, et il fut décidé de canceller son inscription, et il lui fut permis de prendre un autre homestead ailleurs.

Le Ministre dit que les diverses parties intéressées, suivant le rapport de l'inspecteur des homesteads, s'entendirent pour acheter le ¼ N.-E. de la même section pour M. Bender en compensation du homestead qu'il avait cédé. Par un rapport du 27 d'août 1902 des commissaires des terrains marécageux cette terre est déclarée terrain marécageux, mais dans le temps il ne voulurent pas le transférer à cause d'une réserve qui

y était attachée. Aujourd'hui rien n'empêche qu'il soit transféré à la province.

Le Ministre dit de plus que l'agent des terres fédérales à Winnipeg fait rapport que le commissaire des terres provinciales est prêt à prendre la terre comme terrain marécageux et de la vendre à M. Bender au prix de $2 l'acre, et que l'argent prélevé par la communauté pour M. Bender est entre les mains du département de l'immigration à Winnipeg.

A ces causes, le Ministre recommande que le quart nord-est de la section 36, township 19, rang 1 à l'ouest du principal méridien, soit attribué à Sa Majesté le Roi Edouard VII pour les fins de la province du Manitoba, en vertu des dispositions du quatrième article du chapitre 47 des Statuts revisés du Canada.

Le comité soumet ce qui précède à l'approbation.

JOHN J. McGEE,
46-4 Greffier du Conseil privé.

DANS L'AFFAIRE DE LA plainte de la Farmers' Association of Canada, et de la Dominion Cattle Dealers' Association (ci-après appelées les plaignantes) contre la Compagnie du Grand Tronc de chemin de fer du Canada et la Compagnie de chemin de fer Canadien du Pacifique (ci-après appelées les "compagnies défenderesses") en vertu de l'*Acte des chemins de fer*, 1903, à la commission, alléguant que des taux préférentiels et excessifs sont imposés pour le transport des animaux, en chargements complets de wagons, à partir des stations sur les lignes des compagnies défenderesses jusqu'à Montréal, pour l'exportation ;

Considérant que par ordre de la commission, daté le 6e jour de mars, A.D. 1905, les compagnies défenderesses sont enjointes de soumettre à l'approbation de la commission une proposition pour des taux variant de 23½ centins depuis des stations en Canada à l'ouest de Stratford, London et St. Thomas, et 25 centins depuis le territoire au nord de Goderich contigu au lac Huron et la Baie Georgienne, par groupes raisonnablement gradués, à 15 centins depuis Toronto, les taux à partir du district de Niagara ne devant pas excéder le taux depuis Brantford, les taux actuels ne devant jamais être excédés, et l'article 252, par. 3 de l'*Acte des chemins de fer*, 1903, devant être observé ;

Et considérant que les compagnies défenderesses ont demandé à la commission une nouvelle audition de leur cause, qui a eu lieu à Toronto, mardi le 25 d'avril A.D. 1905 :—

## NOTICE TO MARINERS.

No. 43 of 1905.

(*Atlantic Notice No.* 28.)

All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

### QUEBEC.

(109) RIVER ST. LAWRENCE BELOW QUEBEC—BEAUJEU CHANNEL—LIGHTHOUSE FOUNDATION PLACED —TEMPORARY LIGHTS EXHIBITED.

A cribwork foundation for a lighthouse, under construction for the Department of Marine and Fisheries of Canada, was on 3rd June, 1905, sunk in the south channel of the River St. Lawrence, northwest of the West narrows of Beaujeu channel.

Lat. N. 47° 4′ 16″
Long. W. 70 30 52

The lower part of the structure is 50 feet square, of timber cribwork 13 feet high. This will be surmounted by concrete walls with a batter, the frames for these walls are erected, and stand 8 feet above high water mark.

The foundation is sunk with one corner pointing up stream, in 14 feet water, on the shoal spot lying 1⅔ cables west of Beaujeu bank gas buoy. From it Crane island lighthouse bears S. 62° W. distant 2 miles, and the front beacon used for placing the gas buoy, N. 14° W. distant 3 cables.

The following sextant angles fix the position of the crib :—

| | | |
|---|---|---|
| Stone Pillar lighthouse | 0° | |
| L'Islet church | 21° | 24′ |
| Cap St. Ignace church | 68 | 54 |
| St. Thomas church | 69 | 58 |
| Crane island lighthouse | 24 | 2 |
| Front gas buoy beacon | 104 | 3 |
| Stone Pillar lighthouse | 71 | 39 |

The contractors maintain, on the upper part of the scaffolding, two reflector lanterns, showing temporarily fixed white lights up and down stream, from an elevation of 6 feet above high water mark. These should be visible 3 miles in the channel.

The light showing down stream, in one with Crane island light, bearing S. 62° W., marks the deep water channel from the lower end of Goose island reef to the turn at Beaujeu bank gas buoy. There is one spot with 3 fathoms on it in the alignment, about 1½ cables east of the crib, but pilots make the turn for the gas buoy a long distance below this spot.

## AVIS AUX NAVIGATEURS.

No. 43 de 1905.

(*Avis de l'Atlantique No.* 28).

Tous les relèvements, à moins d'avis contraire, sont magnétiques et sont donnés venant de la mer, les milles sont des milles marins, les hauteurs sont au-dessus des hautes eaux, et toutes les profondeurs sont à l'eau basse moyenne.

### QUÉBEC.

(109) FLEUVE SAINT-LAURENT EN BAS DE QUÉBEC—CHENAL BEAUJEU—FONDATIONS D'UN PHARE—FEUX TEMPORAIRES MONTRÉS.

Le 3 de juin 1905, on a immergé, dans le chenal sud du fleuve Saint-Laurent, au nord-ouest des rétrécis ouest du chenal Beaujeu, un caisson pour servir de fondation à un phare que fait construire le ministère de la Marine et des Pêcheries.

| | | | | |
|---|---|---|---|---|
| Lat. | N. | 47° | 4′ | 16″ |
| Long. | O. | 70 | 30 | 52 |

La partie inférieure de la structure a 50 pieds carrés, en caissonnage de 13 pieds de hauteur. Ceci sera surmonté de murs en béton avec un fruit, les cadres pour ces murs sont érigés, et sortent de 8 pieds au-dessus de la marque de l'eau haute.

La fondation, dont un angle pointe en remontant, est immergée dans 14 pieds d'eau, sur le haut-fond sis à 1⅔ encablure à l'ouest de la bouée à gaz de la batture Beaujeu. De là l'île aux Grues se trouve à 2 milles dans une direction S. 62° O., et la balise antérieure servant à placer la bouée à gaz, est à 3 encablures N. 14° O.

Les angles ci-dessous indiquent la position du caisson :—

| Phare du Pilier de Pierre..... | 0° | |
| Eglise de L'Islet..... | 21° | 24′ |
| Eglise du Cap St-Ignace..... | 68 | 54 |
| Eglise de St-Thomas..... | 69 | 58 |
| Phare de l'île aux Grues..... | 24 | 2 |
| Balise de la bouée à gaz antérieure | 104 | 3 |
| Phare du Pilier de Pierre..... | 71 | 39 |

Les entrepreneurs entretiennent sur le haut de l'échafaudage deux lanternes à réflecteurs, montrant temporairement des feux blancs fixes en remontant et en descendant, à une élévation de 6 pieds au-dessus de la marque de l'eau haute. Ces feux doivent être visibles à 3 milles dans le chenal.

Quand le feu qui brille en descendant le fleuve est en conjonction avec le phare de l'île aux Grues, direction S. 62° O., il marque le chenal en eau profonde depuis l'extrémité inférieure de l'île aux Oies jusqu'au détour à la bouée à gaz de la batture Beaujeu. Il y a un endroit dans l'alignement qui a 3 brasses d'eau, à environ 1½ encablure à l'est du caisson, mais les pilotes font le détour pour la bouée à gaz loin en bas de cet endroit.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.
